Edited by JOHN B. BOOTH

Assistant Editors DAVID WRIGHT, NEIL WEIR, PATRICK BEASLEY & CAROL WENGRAF

Adviser in Pathology IMRICH FRIEDMANN

The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITOR

JOHN B. BOOTH

ASSISTANT EDITORS

DAVID WRIGHT, NEIL WEIR, PATRICK BEASLEY AND CAROL WENGRAF

INSTRUCTIONS FOR AUTHORS

1. Original articles which have not been published elsewhere are invited and should be sent to the Editor. They are considered for publication on the understanding that they are contributed to this *Journal* solely. Reproduction elsewhere, in whole or in part, is not permitted without the previous written consent of the Author and Editor and the customary acknowledgement must be made. Normally an original main article should not exceed 7500 words.

Longer articles or theses will be considered for publication as *Supplements*, at the expense of the authors or their employing authorities.

2. Manuscripts should be typewritten in duplicate on one side only of the paper (A4 297×210 mm) and double spaced, with wide margins.

Begin each component on a new page in the following sequence: title page, abstract, text, acknowledgements, references, tables and legends.

(a) **Abstract**—This should contain not more than 150 words and include a statement of the problem, the method of study, results and conclusions; a 'summary' section should *not* be included in the main manuscript.

(b) **Text**—Suggested outline—(1) introduction, (2) materials and methods, (3) results, (4) discussion, (5) conclusion.

(c) **Tables** are adjuncts to the text and should not repeat material already presented.

(d) **Illustrations**—Two set of illustrations, one with each copy of the manuscript, must be submitted and all authors should remember that the single column width is 80mm. One set of illustrations should, therefore, not exceed this width and they should ensure that the essential features are illustrated within this dimension.

Coloured illustrations will be charged to authors, unless a special grant is authorized by the Editor.

Written permission from the publisher must be provided to the *Journal* in order to republish material with copyright elsewhere and also from the senior author where necessary.

(e) **Measurements** must be in metric units, with *Système Internationale* (SI) equivalents given in parentheses.

(f) **References**—For *Journal* articles, The Harvard system of recording references should be used, e.g. Green, C. and Brown, D. (1951). The tonsil problem. *Journal of Laryngology and Otology* 65: 33–38. A paper written by more than two authors should be abbreviated in the text, e.g. Green *et al.* 1951, but *all* the authors should be given in the list of references. The titles of all *Journals* should be given without abbreviation. **References should be listed in alphabetical order**; use of the Vancouver system will *not* be accepted.

For single-author books, the following style should be used: Green, C. (1951). *The tonsil problem*, 2nd edn., vol. 1, Headley Brothers Ltd., Ashford, Kent, 98 pp.

For papers in multi-author books with one or more editors, the reference should be recorded as follows: Brown, D. (1951). In *Diseases of the Ear, Nose and Throat* (White, A. and Black, B., eds.), pp. 33–38, Headley Brothers Ltd., Ashford, Kent.

It is most important that authors should verify personally the accuracy of every reference before submitting a paper for publication. The names of authors cited in the References should be given in alphabetical order.

(g) **Meetings**—If the manuscript was presented at a meeting, the place where it was held, and the date on which it was read must be included and should appear at the foot of the title page.

(h) **Financial disclosures**—In the submission letter to the Editor, the authors must list all affiliations with or financial involvement in, organizations or entities with a direct financial interest in the subject matter or material of the research discussed in the manuscript.

(i) **Rejections**—As from January, 1989, all manuscripts which are rejected will no longer be returned to the authors. Those submitting papers should, therefore, ensure that they retain at least one copy and the reference numbers, if any, of the illustrations. The only exception to this will be those manuscripts with colour illustrations which will be returned *automatically* by Surface Mail.

3. Page proofs are sent to authors for corrections, which should be kept to a minimum; they must be clearly marked, and no extra matter added. Proofs should be returned within 5 days.

4. Orders for reprints must be sent when returning page proofs, and for this purpose special forms are supplied.

5. Editorial communications may be addressed to **The Editor, Journal of Laryngology and Otology, c/o Headley Brothers Ltd., The Invicta Press, Ashford, Kent TN24 8HH.**

6. **The annual subscription is £50 (fifty pounds sterling) post free; U.S.A. \$123 post free, and payable in advance.**

7. Single copies of current or back numbers (when available) will be on sale at £10 each (including postage).

8. All subscriptions, advertising and business communications should be sent to the publishers, or subscription agents.

KAMPLEX AC30...

have you heard?

When you listen to the Kamplex AC30 there's one thing we promise you *won't* hear — a noisy attenuator. That's because Kamplex have developed a unique clickless intensity control to meet the demands of rigorous clinical use.

That's just one example of what goes into the AC30. As well as all the features you might expect in a clinical audiometer, you will find a computer interface as standard, user defined programming capabilities, optional monitor and printer and much more — at a price that will delight you.

The combination of user-orientated design with microprocessor technology and over 20 years of experience, has contributed to making the AC30 an unrivalled package of flexibility, reliability and value for money.

*Hear the difference
for yourself.*

The Journal of tolaryngology

...the official "voice" of

The Canadian Society of Otolaryngology Head and Neck Surgery

is published in February, April, June, August, October and December

Established in 1972, The Journal of Otolaryngology publishes original papers dealing with clinical and research aspects of otolaryngology in its broadest sense, including:

- AUDIOLOGY** **HEAD AND NECK SURGERY**
- BRONCHO-OESOPHAGOLOGY** **MAXILLOFACIAL SURGERY**
- FACIAL PLASTIC AND RECONSTRUCTIVE SURGERY**
- COMMUNICATIVE DISORDERS**

The Journal of Otolaryngology, with thirteen corresponding editors contributing from around the world and half of its circulation outside Canada, is a truly international publication.

The Editor, Derek Birt, M.B., of Toronto, hopes that this international "flavour" will serve as a significant factor in your decision to become a new subscriber to The Journal of Otolaryngology.

Subscription Rates: £45.00 per year

Back Issues available at £4.50 each plus postage

when
vertigo
puts them
in a spin

“The first attack of Ménière’s disease may be monosymptomatic, with sudden, prolonged vertigo without deafness or tinnitus.”¹

sercurity
betahistine

tackles the symptoms by treating the cause

Presentation

White tablets containing 8mg betahistine dihydrochloride. Available in packs of 120 tablets. Basic NHS price: £12.88.

Indications

Vertigo, tinnitus and hearing loss associated with Ménière’s syndrome.

Dosage and Administration

Adults: Initially two tablets three times daily, taken preferably with meals.

Maintenance dose: 3-6 tablets daily.

Children: No dosage recommendations are made for children.

Contra-indications, Warnings, etc.

Contra-indications: Phaeochromocytoma.

Precautions: Clinical intolerance to Serc in bronchial asthma patients has not been shown, but caution should be exercised when administering this histamine analogue to bronchial asthma patients. Interaction between Serc and antihistamines is theoretically possible, but no reports have been received. The usual precautions should be observed when administering Serc to patients in pregnancy.

Side effects: There has been a small number of reports of gastric upset.

Product Licence Number 0512/0076.
