

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

AUGUST 1974

VOL. 19 PART 1

LONGMAN

INFORMATION FOR CONTRIBUTORS TO
ANIMAL PRODUCTION

Detailed notes for guidance in the preparation of manuscripts are printed in volume 13, pages ix to xx. A few general points are given below.

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. Notes are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

Manuscripts should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. *Two* copies of the typescript (and of illustrations) should be sent to

Dr. Gerald Wiener,
Animal Production,
ARC Animal Breeding Research Organisation,
West Mains Road, Edinburgh EH9 3JQ, Scotland

Manuscripts are not returned with proofs; authors should therefore retain copies.

Units of measurement. Metric units should be used. SI units will be accepted but are not obligatory.

Symbols and abbreviations. Authors should consult the notes prepared for guidance. Levels of statistical significance which can be indicated without explanation are: * = $P < 0.05$, ** = $P < 0.01$, *** = $P < 0.001$.

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

Tables should be as simple and as few as possible. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

A new tool to help you build and manage science journal collections

If you are in charge of any general or special collection of science journals, the *Journal Citation Reports* can play a valuable part in making your collection more useful to the reader and more manageable for you. *JCR*TM can help you

- ... prove the relative usefulness of each journal in your collection
- ... select the most used journals in any scientific discipline
- ... identify lesser known journals of proven value in a given field
- ... accurately judge how long scientists find a particular journal's issues useful
- ... identify journals from other disciplines which are related to your readers' primary journal interests

This new service provides carefully selected statistical evidence to help you judge the

ISI JOURNAL CITATION REPORTSTM

usefulness of individual journals and the effects of time on the value of published journal articles. It will help you to better understand the patterns of relationships between journals and ways scientists use, read and refer to them.

Once you've gotten the full story on *JCR* you'll see quickly how you can use it to determine the optimum makeup of special and general journal collections as well as the size of journal back files. You'll see how you can use it in managing subscription budgets, in developing journal circulation and photocopying policies and in a myriad of individual ways you can tailor to your own interests and needs.

To obtain the full story on the many uses of *JCR* and complete pricing information, please use the coupon below.

BOTSWANA

ANIMAL PRODUCTION OFFICER

Required by the Ministry of Agriculture to develop the short course centres and training facilities on the Department's ranches to develop research findings; to assist in developing the beef industry and to liaise closely with other Divisions and Agencies concerned with the production and marketing of livestock.

Candidates must have an Agriculture Diploma with a minimum of 10 years appropriate experience.

Salary in the range £3340 to £4140pa which includes an allowance normally tax free, of £864 to £1344pa. Terminal gratuity 25% on basic salary only.

Benefits include paid passages, generous leave, Government quarters at reasonable rental, education allowances etc. A car loan of £600 and an Appointment Grant of up to £200 may also be payable, subject to certain conditions.

The post described is partly financed by Britain's programme of aid to the developing countries administered by the Ministry of Overseas Development.

For further particulars you should apply, giving brief details of experience, to:

crown agents

M Division, 4 Millbank, London SW1P 3JD, quoting reference number MID/740644/ABB

GOVERNMENT OF BOTSWANA

VETERINARY OFFICER (LECTURER)

Required to lecture to and train veterinary assistants both in theory and practice, and assist in college administration. Candidates should be BVS and/or MRCVS and preferably have experience of field work in Africa.

Salary in the range £2320 to £4100 p a which includes, where appropriate, an allowance, normally tax free of up to £900 p a. Terminal gratuity 25% on basic salary only.

For a married man with two children paying tax at the standard rate the total emoluments described above, including gratuity, approximate to a gross (ie before tax) UK return of £4500 to £6350 and for a single man about £3700 to £5300 p a.

Other benefits include free passages, generous leave, education allowances, government quarters at moderate rental. Appointment Grants of £200 and Car Advances of £600 may be payable, subject to certain conditions.

The post described is partly financed by Britain's programme of aid to the developing countries administered by the Ministry of Overseas Development.

For further particulars you should apply, giving brief details of experience, to:

M Division, 4 Millbank, London SW1P 3JD, quoting reference number M1D/730850/ABB

BOTSWANA

ANIMAL PRODUCTION OFFICER

Required by the Animal Production Division of the Ministry of Agriculture to manage the Government sheep and goat breeding stock, to supervise the sale of breeding animals from this and to advise farmers in small stock management. He will also survey the small stock in Botswana and advise on methods of improvement and exploitation.

Candidates must have a national diploma in Agriculture with a minimum of 5 years appropriate experience in a practical or advisory capacity in sheep and goat husbandry.

Salary in the range £2740 to £3740 p.a. which includes an allowance, normally tax free, of £636 to £1344 p.a. Terminal gratuity 25% on basic salary only.
For a married man with two children paying tax at the standard rate the total emoluments described above, including gratuity, approximate to a gross (i.e. before tax) UK return of £4150 to £5500 and for a single man about £3800 to £5050 p.a.

Benefits include paid passages, education allowances, Government quarters at reasonable rental, generous leave. A car loan of £600 and an Appointment Grant of up to £200 may also be payable.

The post described is partly financed by Britain's programme of aid to the developing countries administered by the Ministry of Overseas Development.

For further particulars you should apply, giving brief details of experience, to:

crow agents

TROPICAL ANIMAL HEALTH AND PRODUCTION

Edited by W. G. Beaton

The aim of this Journal is to publish the results of original research, investigation or technology in the field of veterinary medicine and animal production which may lead to the better utilization of animal resources with particular reference to tropical and sub-tropical countries. It also contains articles on the epidemiology of the diseases of animals in the tropics, the control of zoonoses and reviews of specific subjects.

Published quarterly in February, May, August and November.
Volume 6, 1974.

Annual subscription £8.00 : USA \$24.00

Single numbers £2.00 : USA \$ 6.00

Published under the E & S Livingstone imprint
