JOURNAL OF BIOSOCIAL SCIENCE

Symposium Report No. 5

BRITISH ASSOCIATION FOR THE ADVANCEMENT OF
SCIENCE

Sections E and I. Geography and Biomedical Sciences

ASPECTS OF MEDICAL GEOGRAPHY

Proceedings of a Symposium

held 23rd August during

the Canterbury Meeting 1973

Edited by SHEILA M. BAIN and MARGARET HERBERTSON

G. M. Howe	Introduction
Jacques M. May	Medical geography: a theory of medicine
Sheila M. Bain	A geographer's approach in the epidemiology of psychiatric disorder
Harry V. Warren	Environmental lead: a survey of its possible physiological significance
L. J. Bruce-Chwatt	Air transport and disease
W. B. Fisher	Geography and the organization of medical services
H. J. Jusatz	Changes in the state of infectious diseases in South and South-East Asia
D. A. Robinson, A. J. Radford and N. R. E. Fendall	Fallacies in comparing international disease trends

Price £1.75. Obtainable from *Journal of Biosocial Science* Business Office,
69 Eccleston Square, London SW1V 1PJ.

JOURNAL OF BIOSOCIAL SCIENCE

From 1 January 1976 the *Journal of Biosocial Science* will be published by the Galton Foundation and distributed by The Biochemical Society (Publications).

All orders, payments and enquiries regarding 1976 issues (including back numbers sales) should be addressed to:

**Journal of Biosocial Science,
PO Box 32, Commerce Way,
Colchester CO2 8HP,
UK**

For 1976 (Volume 8) there will be four issues, published in January, April, July and October, comprising approximately 450 pages, equivalent, by a slight change in format, to the present 500 pages.

The subscription rates for 1976 are: Annual subscription £15.00 (US \$37.50)
Per part £4.00 (US \$10.00)

To avoid a break in continuity subscribers are asked to place their orders, either direct or through an agent, by mid-December. Should a Standing Order be required, this should be indicated in the order instructions and an invoice will then be sent automatically in the last quarter of each year.

Concessionary rates for members of Societies: enquiries should continue to be addressed to the Journal's Business Office at:

**69 Eccleston Square,
London SW1V 1PJ,
UK**

Manuscripts for publication and books for review should continue to be sent to:

**The Executive Editor,
Journal of Biosocial Science,
7 Downing Place,
Cambridge CB2 3EL,
UK**

JOURNAL OF BIOSOCIAL SCIENCE

Notice to Contributors

The *Journal of Biosocial Science* publishes original papers, reviews, lectures, proceedings and major book reviews dealing with social aspects of human biology, including reproduction and its control, gerontology, ecology, genetics and applied psychology; with biological aspects of the social sciences, including sociology, social anthropology, education and criminology; and with biosocial aspects of demography. Preference will be given to material which is clearly interdisciplinary.

Papers are considered for publication on the understanding that they have not been, and will not be, published elsewhere in whole or in part, and that, where customary, they have been approved for publication by the relevant Head of Department. The Editor is not responsible for any loss of or damage to manuscripts or illustrations and his decision on all editorial matters is final. This journal is covered by *Current Contents* and *Biological Abstracts*.

Manuscripts should be sent in duplicate to the Executive Editor, *Journal of Biosocial Science*, 7 Downing Place, Cambridge CB2 3EL. They should be clearly typewritten, on one side of the paper only, with a 1½ inch margin, and be double-spaced and in the English language. Spelling should follow that of the *Concise Oxford Dictionary*. Where English is not the language of the country of origin, a translation of the English summary into that language may additionally be provided for publication.

Papers must be written clearly, simply and concisely. They should be checked very carefully before being submitted. The author is responsible for the accuracy of quotations, tabular matter and references.

An original paper should not include an extensive review of the literature, but only sufficient references to indicate the purpose and relevance of the investigation. Methods which have been recorded previously should be described only briefly and in general terms, but the author's modifications, if any, may be given in detail. Text, tables and figures must be internally consistent and not repetitious. Results should be described concisely and discussion limited to the significant new findings. Theoretical exercises should be such as to lead to conclusions of general interest. Reviews should be authoritative and well documented.

The Editor reserves the right to make minor literary emendations in the final editing, but manuscripts will not be altered substantially without consultation with the author or marked unless the paper is thought provisionally to be acceptable.

Manuscripts should bear the title of the paper, name of the Institution where the work was done and, as a footnote, the present postal address of the author if different from that of the Institution. Titles should be brief, but informative, and should indicate the nature of the contents, not their import. A short title, to serve as a running head and consisting of not more than 50 letters (including spaces), should also be given on the title page. A summary not exceeding 5% of the length of the paper should precede the text. Section headings may be of four orders which in print will appear as: centre bold, centre italics, side raised italics and side inset italics; of these, the first and third are normally sufficient. Acknowledgments should be made at the end of the text in a separate section. Footnotes should be avoided except as indicated above.

Diagrams must be numbered as Text-figures and should bear the author's name, short title of the paper and figure number on the back. Captions for Text-figures should be typed on a separate sheet. Visual aids of this kind should be used where possible to replace or supplement tabular matter.

Tables should be typed on separate sheets, be given Arabic numbers and be headed by adequate captions. Their approximate position in the text should be indicated by a note in the margin. They should not exceed in size the equivalent of one page of print. Weights and measurements should be given in metric units, with standard abbreviations (μg , mg, g, kg; ml, l; mm, cm, m, km, °C). Other abbreviations which should be used include %, <, >, hr, min. The 24-hr clock should be used to indicate the time of day. Abbreviations as such, should not be followed by, and initials need not be separated by, full points (e.g. FPA). Mean values should, where possible, be accompanied by standard errors or similar statistical indications of variance.

References in the text should be given in the manner that is standard in the Journal. Titles of journals should be abbreviated according to the *World List of Scientific Periodicals*, 4th edn (1964) and its supplements, and as also given in *World Medical Periodicals*.

An unpublished paper should not be cited among the references unless it has specifically been accepted for publication by a particular Journal, in which case the words (in press) should be used in place of the volume and page number of the journal.

Proofs will be sent to contributors for minor corrections, and should be returned to the Editor within one week. Special attention should be given to the checking of tables, mathematical formulae and Text-figures. Major alterations to the text will be accepted only at the author's expense. Overseas contributors are advised to arrange for a proof-reader in Great Britain. The date of receipt given at the head of the paper is that on which the script as published was received or agreed.

Offprints. 25 offprints together with a copy of the issue of the Journal in which the paper appears will be supplied free to the author, or, where there are two or more, to the author responsible for ordering offprints. Additional offprints up to the limit of 500 may be purchased if ordered on the form sent out with the proofs.

Page charge. There is no charge to authors for publication in *J. biosoc. Sci.*

© Galton Foundation. No part of this publication may be reproduced or stored in a retrieval system in any form or by any means without the permission of both the Galton Foundation and the author.
