3M™ AVAGARD™ CHG

3M Avagard is the first – and only –
waterless, brushless handscrub
approved by the FDA

Don't be fooled by "compliance." While alcohol
and povidone iodine are accepted surgical hand
antiseptics, neither ingredient alone meets FDA
criteria for persistence or cumulative activity.
3M Avagard is the only waterless, brushless hand
antiseptic with CHG for true persistence – and the
only one approved by the FDA.
