

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

OLIVER & BOYD LTD.
EDINBURGH AND LONDON

OCTOBER 1965

VOL. 7 PART 3

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made. *Contributions* may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. Notes are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations. *Manuscripts* should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. Two copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,
A.R.C. Animal Breeding Research Organisation,
West Mains Road, Edinburgh 9.

Manuscripts are not returned with proofs; authors should therefore retain copies.

Illustrations (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless authors bear the cost.

Tables should be as simple and as few as possible; if they are very large or numerous a charge may have to be made to authors. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

Single number, 25s. or \$4.00 net.

Annual subscription, 65s. or \$11.00

BRITISH POULTRY SCIENCE

CONTENTS OF VOLUME 6, PART 3, JULY 1965

- GAISFORD, M. J. The application of shell strength measurements in egg shell quality determination.
- KRAUSE, ELIOT, YAMADA, YUKIO and BELL, A. E. Genetic parameters in two populations of chickens under reciprocal recurrent selection.
- BERMAN, A. and SNAPIR, N. The relation of fasting and resting metabolic rates to heat tolerance in the domestic fowl.
- BLYTH, J. S. S., PUN, C. F. and SANG, J. H. Survey of line crosses in a brown Leghorn flock. 2. Relations of hatched chick weight to egg weight in inbred lines and their crosses.
- DAVIDSON, J. and MATHIESON, J. Observations on the utilisation of dietary energy by medium- and fast-growing strains of cockerels and on their arginine and methionine requirements.
- TYLER, C. and GEAKE, F. H. Egg shell thickness patterns as shown by individual domestic hens.
- SITTMANN, K. and ABPLANALP, H. Duration and recovery of fertility in Japanese quail (*Coturnix coturnix japonica*).
- GORDON, R. F. and TUCKER, J. F. The epizootiology of *Salmonella menston* infection of fowls and the effect of feeding poultry food artificially infected with salmonella.
- RHODES, D. N. The radiation pasteurisation of broiler chicken carcasses.
- BOOK REVIEWS.

This journal is published quarterly in January, April, July and October. The annual subscription is 80s. (U.S.A. \$14.00), single parts 22s. 6d. (U.S.A. \$4.00). Orders and subscriptions may be sent to any bookseller or direct to the publishers:

OLIVER AND BOYD LTD
Tweeddale Court, 14 High Street, Edinburgh, 1

JOURNAL OF DAIRY SCIENCE

OFFICIAL PUBLICATION OF THE AMERICAN DAIRY SCIENCE
 ASSOCIATION SINCE 1917

F. E. NELSON, President, University of Arizona, Tucson
 E. O. HERREID, Editor-in-Chief, University of Illinois, Urbana
 C. J. CRUSE, Treasurer, Box 327, Monticello, Illinois

Shortened titles of papers published in the January issue:

C. V. MORR. Effect of Heat on Skimmilk.
 CAROLYN BOATMAN. Polyunsaturated Fatty Acids in Milk Fat.
 LAURA EVANS. Metabolism of Lipoproteins.
 P. SHANNON. Conception Rates and Sampling Variances.

This Journal is published monthly. The annual subscription rate is \$20.00 in the United States and Canada and is \$20.50 in all other countries, post paid.

Subscriptions should be sent to the Garrard Press, 510 North Hickory Street, Champaign, Illinois.

Membership dues to the Association are \$12.50 per year, including the *Journal of Dairy Science*. Dues should be sent to C. J. Cruse, American Dairy Science Ass'n, P.O. Box 327, Monticello, Ill. 61856.

A MONTHLY REVIEW OF VETERINARY SCIENCE

Editor: J. A. LAING Chairman of Editorial Board: SIR JOHN RITCHIE

The British Veterinary Journal

This, the oldest veterinary periodical in the British Commonwealth, has always maintained the broadest interest in animal welfare including regular articles on breeding and nutrition

Annual Subscription 100s.

U.S.A. & Canada \$17.50

Recent and future Papers include:

Rathore: Diurnal and Nocturnal Variations in the Ruminal Contraction, Respiration Rate, Pulse Rate and Temperature and their Relationship in Lactating Holstein Cows. *Terlecki and Sojka*: The Pathogenicity for Lambs of *Escherichia coli* of certain Serotypes. *Lindley*: Experiments with an Attenuated Culture Vaccine against Contagious Bovine Pleuropneumonia. *Lovell*: Epidemiology. *Sainsbury*: Modern Management. *Hughes*: Nutritional Deficiencies. *Lesslie and Hebert*: The Use of Dilute Tuberculins for Testing Cattle. *Armour and Urquhart*: The Control of Helminthiasis in Ruminants.

ANIMAL BREEDING ABSTRACTS

Bringing the latest information from

Sources not always available

To international

Research workers,

And contains review articles of

Current interest as well as

Titles and

Summaries of all important papers on animal breeding

If you live in the British Commonwealth or Republic of Ireland you can have this valuable guide to the latest literature on livestock breeding and production on your desk at the beginning of March, June, September and December for 65s.*

For an extra 25s. you can order your *Animal Breeding Abstracts* printed on one side only, suitable for mounting on cards.

*The subscription in
non-contributing
countries is 140s.

Slough, Bucks., England**

announcing **EXPERIMENTAL AGRICULTURE**

Experimental Agriculture is a journal concerned with the whole range of agricultural problems in developing countries. It aims to provide a link between academic research and agricultural practice.

Articles include authoritative and up-to-date reviews of new developments in scientific agriculture;

accounts of new experimental techniques, especially those concerned with methods of studying the agricultural environment, the relative merits of new crops, varieties and cultural operations and the application of biometry to field experimentation;

contributions from developing countries on the specific problems of increasing agricultural production, especially where this is at present based on peasant subsistence agriculture;

papers on the more technical and economic aspects of farming systems, especially where these bear on the problems of changing an existing system;

descriptions of successful experiments in extension methods, cooperation, community projects and related topics concerned with the sociological aspects of agricultural improvements.

Experimental Agriculture is a quarterly journal published by Cambridge University Press. It is successor to *The Empire Journal of Experimental Agriculture*.

The subscription price is £3. 15s. (U.S.A. \$13.50) including postage; single parts are available at £1. 5s. each (U.S.A. \$4.50). Orders may be sent to any bookseller or subscription agent, or direct to Cambridge University Press.

LIST OF SHORTENED TITLES, VOL. 32, No. 3, OCTOBER 1965

Subscription price per Volume of 3 parts 80s. Single parts 30s.

- Effect of silage on milk yield and composition. J. C. MURDOCH.
- Steam distillation of taints from cream. N. J. WALKER.
- Effects of incomplete milking on milk composition. J. V. WHEELOCK, J. A. F. ROOK and F. H. DODD.
- Milk composition after milking during pregnancy. J. V. WHEELOCK, J. A. F. ROOK and F. H. DODD.
- Effect of oxytocin injections on milk composition. J. V. WHEELOCK, J. A. F. ROOK and F. H. DODD.
- Reworking of butter and moisture distribution. R. M. DOLBY.
- Cream processing and hardness of butter. F. W. WOOD and R. M. DOLBY.
- Laboratory-scale HTST milk pasteuriser. J. G. FRANKLIN.
- Review. Cattle in a hot environment. W. BIANCA.

Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1

THE JOURNAL OF AGRICULTURAL SCIENCE

VOL. LXV, PART 1, AUGUST 1965

- MCROBERTS, M. R., HILL, R. and DALGARNO, A. C. The effects of diets deficient in phosphorus, phosphorus and vitamin D, or calcium, on the skeleton and teeth of the growing sheep. I. The mineral status of the skeleton and clinical appearance of the teeth. II. Malocclusion of the teeth. III. The composition and structure of the teeth. IV. The uptake of radioactive phosphorus by the bones and teeth.
- ARNOLD, M. H. The control of bacterial blight in rain-grown cotton. II. Some effects of infection on growth and yield.
- FORD, E. J. H. The effect of diet on glucose utilization by sheep.
- WIDDOWSON, F. V., PENNY, A. and WILLIAMS, R. J. B. Experiments comparing concentrated and dilute NPK fertilizers and four nitrogen fertilizers on a range of crops.
- THWAITES, C. J. Photoperiodic control of breeding activity in the Southdown ewe with particular reference to the effects of an equatorial light regime.
- LAZENBY, A. and ROGERS, H. H. Selection criteria in grass breeding. IV. Effect of nitrogen and spacing on yield and its components. V. Performance of *Lolium perenne* genotypes grown at different nitrogen levels and spacings.
- LANG, R. W. and HOLMES, J. C. The effect of plant population and distribution on the yield and quality of swedes.
- LARGE, R. V. The artificial rearing of lambs.
- REID, D. and CASTLE, M. E. The response of grass-clover and pure-grass leys to irrigation and fertilizer nitrogen treatment. II. Clover and fertilizer nitrogen effects.
- JONES, D. J. C. The effects of advancing season on the chemical composition of marrow stem kale.
- JONES, L. H. P. and HANDRECK, K. A. The relation between the silica content of the diet and the excretion of silica by sheep.
- SALMON, R. C. Release of non-exchangeable potassium from some Rhodesian soils cropped with grass.

Articles are illustrated with plates and figures

The Journal of Agricultural Science is issued bi-monthly. Subscription (75s. per volume of three parts, two volumes yearly) may be sent to any Bookseller, or to the Cambridge University Press, Bentley House, 200 Euston Road, London, N.W.1

THE BRITISH JOURNAL OF NUTRITION

Shortened Versions of Titles from Vol. 19, No. 3. September 1965

- Ascorbic acid activity in adrenal glands of rats with hypervitaminosis A. By A. K. RAY, N. R. RAY and D. P. SADHU.
- Passage of digesta through the intestines of the sheep. By J. B. COOMBE and R. N. B. KAY.
- Low calcium intake, vitamin D supplements and bone structure in young dogs. By J. R. CAMPBELL and T. A. DOUGLAS.
- Conversion of energy of food into edible energy by table poultry. By J. DAVIDSON and J. MATHIESON.
- Severe undernutrition in growing and adult animals. 15. By C. H. TONGE and R. A. MCCANCE.
- Energy value of pastures assessed by a slaughter technique with lambs. By R. MILFORD and D. J. MINSON.
- Studies on pigs reared on semi-synthetic diets containing no fat, beef tallow or maize oil. By A. N. HOWARD, W. M. F. LEAT, G. A. GRESHAM, D. E. BOWYER and E. R. DALTON.
- Effect of handling rats on their growth and behaviour. By J. J. COWLEY and ELSIE M. WIDDOWSON.
- Linoleic acid content of the diet and fatty acid composition of cholesterol esters in plasma of rabbits. By J. H. MOORE and D. L. WILLIAMS.
- Artificial drying and energy value of grass. By A. EKERN, K. L. BLAXTER and D. SAWERS.
- Preparation of tritium-labelled polyethylene glycol and its use as a soluble rumen marker. By A. R. TILL and A. M. DOWNES.

NUTRITION ABSTRACTS AND REVIEWS

published by the

COMMONWEALTH BUREAU OF ANIMAL NUTRITION

Rowett Research Institute, Bucksburn, Aberdeen, Scotland

A quarterly publication bringing together in abstracts whatever is available of the world literature on human and animal nutrition in all its aspects. Each number contains a Review Article dealing with some subject of current interest.

The subscription to Volume 36, for 1966, is 150s. in countries which contribute to the Commonwealth Agricultural Bureaux, and 220s. (\$33.00) in other countries. Details may be obtained from the Secretary, Nutrition Abstracts and Reviews, at the address shown above.

CONSULTATION SERVICE

The Bureau is prepared, within the limits of its information, to answer enquiries from workers in laboratory research, field investigations or nutritional planning, but not from commercial sources, who do not themselves have access to the necessary literature.

ANIMAL BEHAVIOUR

Supplement No. 1

LEARNING AND ASSOCIATED PHENOMENA IN INVERTEBRATES

*The Proceedings of a Symposium held at Cambridge, England, in July 1964
under the chairmanship of O.E. Lowenstein, F.R.S.*

Proceedings Editors: W. H. THORPE, F.R.S., and D. DAVENPORT.

This newly-published supplement contains the Proceedings of the Symposium which was devoted to learning in all invertebrates, including protozoa, coelenterates, annelids, crustacea, insects and octopus.

The supplement not only contains invaluable material for those working on invertebrates but also provides an up-to-date summary for biologists who are interested in animal behaviour or who have been fascinated by the recent work on planarians.

20 papers. 190 pages, 112 illustrations. 35s. (\$5.00)
