

## ERRATUM

# Concomitant leptospirosis-hantavirus co-infection in acute patients hospitalized in Sri Lanka: implications for a potentially worldwide underestimated problem – ERRATUM

N. P. SUNIL-CHANDRA, J. CLEMENT, P. MAES, H. J. DE SILVA,  
M. VAN ESBROECK AND M. VAN RANST

doi:10.1017/S0950268814003707, Published by Cambridge University Press, 13 January 2015

We regret to announce that there was a serious error in the last full paragraph on page 8 of the above mentioned paper [1]

The incorrect sentence

*That a double (separate or even concomitant) leptospirosis- hantavirus infection is a rarity in Sri Lanka is furthermore confirmed again in the retrospective study, giving 6/23 or 26·0% incidence.*

Should have read

*That a double (separate or even concomitant) leptospirosis-hantavirus infection is all but a rarity in Sri Lanka is furthermore confirmed again in the retrospective study, giving 6/23 or 26·0% incidence.*

Also, on two occasions leptospirosis is given as leptosirosis.

The publishers apologise for these errors.
