

# The Big BANG

In this insightful look at the spiritual side of modern cosmology, philosopher and religious scholar Paul Brockelman argues that the Big Bang theory is a myth—a fully realized creation story, one that, for all its scientific origins, has the power to transform us spiritually.

Passionate and provocative, *Cosmology and Creation* promises to spark a lively debate about the new links between science and religion.

is a MYTH

## ANTI-JUDAISM AND THE GOSPELS

edited by *William R. Farmer*

The Gospel stories of Jesus' conflicts with his opponents have often been interpreted as conflicts between Christianity and Judaism, leading to a form of anti-Judaism in the history of Christianity. In this volume, leading biblical scholars examine the basis for these interpretations and whether they are truly evidenced in the Gospels.
