Aims and Scope

The disciplines of economics and philosophy each possess their own special analytical methods, the combination of which is powerful and fruitful.

Economics and Philosophy seeks to promote the mutual enrichment of the two disciplines by publishing high-quality original research in all contemporary areas linking them, as well as relevant book reviews.

Topics include, but are not limited to, the foundations of rational or behavioral decision theory and game theory, the nature of rationality in general, ethical and other analytic-philosophical issues in economics, the use of economic techniques in ethical theory, and experimental research on economics and philosophy. *Economics and Philosophy* does not publish historical or text-interpretive work, unless it makes a contribution to current debates about economics and philosophy.

Editorial Office

All correspondence should be sent to the managing editor at economicsandphilosophy@cambridge.org. Ideally, articles should be submitted in pdf format, but Word and Rich Text format are acceptable. Articles must be prepared for anonymous refereeing. The journal publishes papers in English only. Authors of accepted articles will be asked to prepare a final version in the journal's style and to submit it electronically. For more information, please visit <http://journals.cambridge.org/eap>. Unsolicited book reviews are not considered. Book publishers should email the Book Review Editor at econphilreviews@gmail.com.
