

BULLETIN

ISSN 0004-9727

of the

AUSTRALIAN MATHEMATICAL SOCIETY

Volume 23 Number 1

February 1981

| | |
|---|-----|
| On normal subspaces by D. B. Gauld, I. L. Reilly and M. K. Vamanamurthy | 1 |
| Positivity notions for holomorphic line bundles over compact Riemann surfaces by Joshua H. Rabinowitz | 5 |
| Numbers of conjugacy classes in some finite classical groups by I. G. Macdonald | 23 |
| On measures of polynomials in several variables by C. J. Smyth | 49 |
| Metrizable (LF)-spaces, (db)-spaces, and the separable quotient problem by Stephen A. Saxon and P. P. Narayanaswami | 65 |
| Another single law for groups by B. H. Neumann | 81 |
| Degrees giving independent edges in a hypergraph by David E. Daykin and Roland Häggkvist | 103 |
| Finite potent groups by John Poland | 111 |
| Extensions of theorems of Gagliardo and Marcus and Mizel to Orlicz spaces by Grahame Hardy | 121 |
| Stability of strongly regular graphs by S. K. Shukla, M. R. Sridharan and S. P. Mohanty | 139 |
| Randomly k-axial graphs by David Burns, Gary Chartrand, S. F. Kapoor and Farrokh Saba | 143 |
| Weak and semi-strong solutions of the Schneider-Tricomi problem in the euclidean space; A uniqueness theorem for the Chaplygin-Frankl problem: Corrigenda by John M. S. Rassias | 159 |
| ABSTRACT OF AUSTRALASIAN PhD THESIS | |
| Water waves above a sill by Yuriko Yamamuro | 157 |

The University of Queensland Press, St Lucia, Queensland, 4067, Australia

| Alan L. Andrew | D. C. Hunt | G. Szekeres |
| B. D. Craven | P. E. Kloeden | D. G. Tacon |
| Brian A. Davey | J. S. Maritz | Colin J. Thompson |
| G. E. Davis | Rodney Nillsen | H. B. Thompson |
| J. R. J. Groves | A. J. van der Poorten | R. F. C. Walters |
| James M. Hill | J. H. Rubinstein | |

Assistant Editors

Robert S. Anderssen

M. S. Brooks

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after being evaluated by the Editor and an Associate Editor or another expert. Of course responsibility for the correctness of results published in the BULLETIN remains with the authors.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to

The Editor.

Bulletin of the Australian Mathematical Society,
Department of Pure Mathematics,
La Trobe University,
Bundoora, Victoria 3083, Australia

and should retain the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper must include an abstract of not more than 200 words.

Details of editorial policy are given on the inside back cover.

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 3 months of the degree being approved.
