

THE EMPIRE JOURNAL OF EXPERIMENTAL AGRICULTURE

THIS JOURNAL offers agricultural research workers a medium for disseminating the records and results of their investigations on the feeding and management of live stock, cultivation and manuring of crops, trial of farm machinery, agricultural economics, and experimental techniques.

Vol. XXIX. No. 114 CONTENTS

April 1961

- J. QUARTERMAN: The Digestibility of Crude Fibre in the Tropics
- H. EPSTEIN: The Development and Body Composition of Docked and Undocked Fat-tailed Awasi Lambs
- J. E. PEAT and K. J. BROWN: A Record of Cotton Breeding for the Lake Province of Tanganyika: Season 1939-40 to 1957-8.
- E. BOSWINKLE: Residual Effects of Phosphorus Fertilizers in Kenya
- D. N. BARUA: The Significance of Seed-size in Cultivated Tea (*Camellia Sinensis* L.)
- J. SMARTT: Groundnut Varieties of Northern Rhodesia and their Classification
- E. CRESSWELL, A. H. KIRTON and D. F. G. ORWIN: Note on the Daily Grazing Distances of Six Romney Ewes, Three of which were Treated with L-Thyroxine.
- E. CRESSWELL: Note on the effect of Shearing, and of Drenching with Simulated Rain, on the Oxygen Consumption and Respiratory Pattern of Sheep
- A. TROUGHTON: Studies on the Roots of Leys and the Organic Matter and Structure of the Soil
- IRENA KRUPKO and R. L. DAVIDSON: An Experimental Study of *Stoebe vulgaris* in Relation to Grazing and Burning
- R. K. DJOKOTO and D. STEPHENS: Thirty Long-term Fertilizer Experiments under Continuous Cropping in Ghana. I

CONTENTS

	PAGE
FREE, J. B. and SPENCER-BOOTH, YVETTE. The effect of feeding sugar syrup to honey-bee colonies	147
FREE, J. B. and SPENCER-BOOTH, YVETTE. Further experiments on the drifting of honey-bees. (With Five Text-figures)	153
CHARLES, ALLEN H. Establishment studies. II. The effect of method of establishment on a 1-year ley in the seeding year. (With Two Text-figures)	159
GODFREY, N. W. The functional development of the calf. I. Growth of the stomach of the calf. (With Three Text-figures)	173
GODFREY, N. W. The functional development of the calf. II. Development of rumen function in the calf. (With Five Text-figures)	177
ROBERTSON, I. S. Studies on the effect of humidity on the hatchability of hen's eggs. I. The determination of optimum humidity for incubation. (With One Plate and Three Text-figures)	185
ROBERTSON, I. S. Studies on the effect of humidity on the hatchability of hen's eggs. II. A comparison of hatchability, weight loss and embryonic growth in eggs incubated at 40 and 70% R.H.	195
ZALESKI, A. White clover investigations. I. Effect of seed rates and cutting treatments on flower formation and yield of seed. (With One Plate)	199
EVERITT, G. C. and CARTER, A. H. Growth and muscle development of steers implanted with hexoestrol. (With One Plate and Six Text-figures)	213
REID, D. Factors influencing the role of clover in grass-clover leys fertilized with nitrogen at different rates. III. The effects of the variety of companion grass and of the variety of clover on the botanical composition of the sward. (With Two Text-figures)	231
TEMPLEMAN, W. G. Urea as a fertilizer	237
HOOD, A. E. M. and PROCTOR, JOHN (the late). An intensive cereal-growing experiment. (With Three Text-figures)	241
LOW, A. J. and PIPER, F. J. Urea as a fertilizer. Laboratory and pot-culture studies	249
BRAUDE, R., TOWNSEND, M., JILL, HARRINGTON, G. and ROWELL, J. G. A comparison of wheat and fine wheat offal in the rations of fattening pigs	257
WALKER, D. M. and LEE, BARBARA A. The rumen fermentation of lactose in the adult sheep. (With Three Text-figures)	267
WALKER, D. M. and WALKER, GWEN J. The development of the digestive system of the young animal. V. The development of rumen function in the young lamb. (With Six Text-figures)	271
GRIFFITHS, D. J. The influence of different daylengths on ear emergence and seed setting in oats. (With One Plate and Two Text-figures)	279

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to SIR JOHN HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given under the heading of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of Journal (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of Journals and books are set in italics; they should be indicated on the typescript by underlining. Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. net per volume (post free); single numbers 25s. net. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$11.50 per volume; single number \$4.25. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N.Y.
