STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION

The Journal of Financial and Quantitative Analysis (ISSN 0022-1090) is published bimonthly (6 issues per year) by Cambridge University Press, a nonprofit organization located at 1 Liberty Plaza, New York, NY 10006-1404, for the University of Washington Michael G. Foster School of Business, located at 370 Mackenzie Hall, UW Box 353200, Seattle, WA 98195-3200. The Managing Editors are Jarrad Harford and Paul Malatesta, Michael G. Foster School of Business, University of Washington, 370 Mackenzie Hall, UW Box 353200, Seattle, WA 98195-3200. There are no known bondholders, mortgagees, or other security holders owning or holding 1% or more of the total amount of bonds, mortgages, or other securities. The purpose, function, and nonprofit status of this organization and the exempt status for federal income tax purposes have not changed during the preceding 12 months. The annual subscription price for the Journal of Financial and Quantitative Analysis is \$721 for institutions and \$129 for individuals. During the preceding 12 months, the average number of copies printed for each issue was 484; the average paid circulation 354; the average free distribution 2; the average number of copies distributed 356. Corresponding figures for the last issue before filing: total number of copies printed 425; total paid circulation 325; free copies distributed 2; total distribution 327. Average percent paid 99%; actual percent paid 99%.

I certify that the statements made by me above are correct and complete.

Nina Iammatteo
Business Manager

(This statement is for 2019.)

Too Smart for Our Own Good

Ingenious Investment Strategies, Illusions of Safety, and Market Crashes

Bruce I. Jacobs

One of today's leading financial thinkers, Bruce I. Jacobs, examines recent financial crises—including the 1987 stock market crash, the 1998 collapse of the hedge fund Long-Term Capital Management, the 2007–2008 credit crisis, and the European debt crisis—and reveals the common threads that explain these market disruptions. In each case, investors in search of safety were drawn to novel strategies that were intended to reduce risk but actually magnified it—and blew up markets. Until we manage risk in responsible ways, major crises will always be just around the bend. *Too Smart for Our Own Good* is a big step toward smarter investing—and a better financial future for everyone.

“This is a highly readable account of a series of innovations that proved too clever by half.”

—**Richard J. Herring, Professor of Finance, and Director, Wharton Financial Institutions Center, The Wharton School**

“Bruce Jacobs has produced an important and timely book that explains the common themes that underlie these disruptive events and offers the possibility of avoiding them in the future. It will be of inestimable, and equal, value to practitioners, regulators, and the academic community.”

—**Richard Lindsey, former Director of Market Regulation and Chief Economist, SEC**

“This is the book investors should read today to be prepared for the next crash, which is certain to come.”

—**Edward M. Miller, Professor of Economics and Finance, University of New Orleans**

“Bruce Jacobs explains in clear and often gripping ways how leverage, opacity, and complex investment strategies contributed to market meltdowns. Anyone who wants markets to be safer and more stable should harken to Jacobs's words of wisdom.”

—**Frank Partnoy, Author of *F.I.A.S.C.O.* and *Infectious Greed*, and Professor of Law, University of California, Berkeley**

“Bruce Jacobs does a splendid job of connecting the dots of the causes of crises and suggests how we can think about the daunting task of ‘taming the tempest.’”

—**Hersh Shefrin, Professor of Finance, Leavey School of Business, Santa Clara University**

“In this very thoughtful and comprehensive book, Bruce Jacobs takes the reader on a tour of the financial markets and the market crises we have lived through. I highly recommend this well researched and written book.”

—**William T. Ziemba, Professor Emeritus, University of British Columbia**

About the Author

Bruce I. Jacobs is co-founder, co-chief investment officer, and co-director of research at Jacobs Levy Equity Management. He is co-author, with Ken Levy, of *Equity Management: The Art and Science of Modern Quantitative Investing*. Jacobs serves on the Advisory Boards of the *Journal of Portfolio Management* and *Journal of Financial Data Science*, and has served on the *Financial Analysts Journal* Advisory Council. He holds a Ph.D. in finance from The Wharton School.
