

# Public Health Nutrition

Volume 24, 2021 ISSN: 1368-9800  
journals.cambridge.org/phn

## **Publishing, Production, Marketing, and Subscription Sales Office:**

Cambridge University Press  
Journals Fulfillment Department  
University Printing House  
Shaftesbury Road  
Cambridge CB2 8BS  
UK

## **For Customers in North America:**

Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

## **Subscription information**

*Public Health Nutrition* is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 24, 2021 (18 issues):  
Internet/print package: £1390/\$2666 Americas only/€2227 EU only  
Internet only: £1006/\$1909 Americas only/€1599 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on [phn.edoffice@cambridge.org](mailto:phn.edoffice@cambridge.org) regarding any other types of submission.

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**Assessment and methodology**

- Diet quality and all-cause mortality among US adults, estimated from National Health and Nutrition Examination Survey (NHANES), 2003–2008  
*Selma Gijevic, Emin Tahirovic, Sabri Bromage and Walter Willett* 2777
- 'Spending all this time stressing and worrying and calculating': marginal food security and student life at a Diverse Urban University  
*Ryan J Gamba, Michael T Schmeltz, Nancy Ortiz, Alina Engelman, Juleen Lam, Adianez Ampil, Maria M Pritchard, Joshua Kier Adrian Santillan, Esteban S Rivera, Lana Mariko Wood, Darice Ingram, Kate Cheyne and Sarah Taylor* 2788

**Nutritional status and body composition**

- Association between parental and offspring BMI: results from EPACI Portugal 2012  
*Margarida Nazareth, Elisabete Pinto, Milton Severo, Carla Lopes and Carla Rêgo* 2798
- Double burden of underweight and overweight among Indian adults: spatial patterns and social determinants  
*Pravat Bhandari, Ezra Gayawan and Suryakant Yadav* 2808
- Poor adherence to the Mediterranean diet is associated with increased likelihood of metabolic syndrome components in children: the Healthy Growth Study  
*Elena S George, Stavroula Gavriil, Catherine Itsiopoulos, Yannis Manios and George Moschonis* 2823

**Nutrition communication**

- Parental considerations during complementary feeding in higher income countries: a systematic review of qualitative evidence  
*Eleni Spyrelli, Michelle C McKinley and Moira Dean* 2834

**Behavioural nutrition**

- Dietary health perceptions and sources of nutritional knowledge in an urban food environment: a qualitative study from Indonesia  
*David Colozza* 2848
- Low adherence to traditional dietary pattern and food preferences of low-income preschool children with food neophobia  
*Lais Andrade dos Anjos, Diva Aliete dos Santos Vieira, Bruna Nabuco Freire Siqueira, Silvia Maria Voci, Anne Jardim Botelho and Danielle Goes da Silva* 2859
- Enhancing the potential effects of text messages delivered via an m-health intervention to improve packing of healthy school lunchboxes  
*Alison Brown, Rachel Sutherland, Lisa Janssen, Nayerra Hudson, Amelia Chooi, Renee Reynolds, Alison Walton, Christophe Lecathelinais, Kathryn Reilly, Nicole Nathan and Luke Wolfenden* 2867
- Alcohol consumption among students and its relationship with nutritional intake: a cross-sectional study  
*Elisabet R Hillesund, Nina C Øverby, Erlend L Valen and Dagrun Engeset* 2877
- Exploring healthcare professionals' views of the acceptability of delivering interventions to promote healthy infant feeding practices within primary care: a qualitative interview study  
*Elaine Toomey, Caragh Flannery, Karen Matvienko-Sikar, Ellinor K Olander, Catherine Hayes, Tony Heffernan, Marita Hennessy, Sheena McHugh, Michelle Queally, Patricia M Kearney, Molly Byrne and Caroline Heary* 2889
- Assessing sugar-sweetened beverage intakes, added sugar intakes and BMI before and after the implementation of a sugar-sweetened beverage tax in South Africa  
*Stephanie V Wrottesley, Nicholas Stacey, Gudani Mukoma, Karen J Hofman and Shane A Norris* 2900
- Toddler milk perceptions and purchases: the role of Latino ethnicity  
*Emily W Duffy, Lindsey Smith Taillie, Ana Paula C Richter, Isabella CA Higgins, Jennifer L Harris and Marissa G Hall* 2911

**Nutritional epidemiology**

- Geospatial analysis of Mediterranean diet adherence in the United States  
*Meifang Chen, Thomas Creger, Virginia Howard, Suzanne E Judd, Kathy F Harrington and Kevin R Fontaine* 2920
- An exploratory study to investigate alcohol consumption among breast-feeding mothers  
*Sarah Baker and Meaghan Christian* 2929
- Habitually skipping breakfast is associated with chronic inflammation: a cross-sectional study  
*Siwei Zhu, Liufu Cui, Xinyuan Zhang, Rong Shu, Hannah VanEvery, Katherine L Tucker, Shouling Wu and Xiang Gao* 2936
- The double burden of malnutrition in under-five children at national and individual levels: observed and expected prevalence in ninety-three low- and middle-income countries  
*Beatriz Raffi Lerm, Inácio Crochemore-Silva, Janaína Calu Costa and Cesar Gomes Victora* 2944
- Demographic, spatial and temporal dietary intake patterns among 526 774 23andMe research participants  
*Janie F Shelton, Briana Cameron, Stella Aslibekyan, 23andMe Research Team and Robert Gentleman* 2952
- A Western-style diet interacts with genetic variants of the LDL receptor to hyper-LDL cholesterolemia in Korean adults  
*Sunmin Park and Suna Kang* 2964
- Food security moderates relationship between perceived food environment and diet quality among adults in communities with low access to healthy food retail  
*Nisha R Gupta and Darcy A Freedman* 2975
- Healthful grain foods consumption by São Paulo residents: a 12-year analysis and future trends  
*Mariane de M Fontanelli, Cristiane H Sales, Michelle A de Castro and Regina M Fisberg* 2987

**Economics and environment**

- Beyond the physical built environment  
*Anna Petrovskis* 2998
- How healthy and processed are foods and drinks promoted in supermarket sales flyers? A cross-sectional study in the Netherlands  
*Audrey Hendriksen, Romy Jansen, Sanne Coosje Dijkstra, Marijn Huijink, Jacob C Seidell and Maartje P Poelman* 3000

**Community nutrition**

- Characterising urban immigrants' interactions with the food retail environment  
*Stella S Yi, Rienna G Russo, Bian Liu, Susan Kum, Pasquale Rummo and Yan Li* 3009
- Perceptions and determinants of healthy eating for people with HIV in the Dominican Republic who experience food insecurity  
*Deshira D Wallace, Denise D Payán, Amarillis Then-Paulino, Gabriela Armenta, María Altigracia Fulcar, Ramón Acevedo and Kathryn P Derose* 3018
- Perceptions of nutrition education classes offered in conjunction with a community-supported agriculture intervention among low-income families  
*Isabel Lu, Karla L Hanson, Stephanie B Jilcott Pitts, Jane Kolodinsky, Alice S Ammerman, Marilyn Sitaker, Weiwei Wang, Leah C Volpe, Emily H Belarmino, Jennifer Garner, Liana Gonsalves and Rebecca A Seguin* 3028
- The effects of foods available through the Food Distribution Program on Indian Reservations (FDPIR) on inflammation response, appetite and energy intake  
*Melinda Smith, Elizabeth Rink, Suzanne Held, Carmen Byker Shanks and Mary P Miles* 3037
- Consumption of multiple micronutrients or small-quantity lipid-based nutrient supplements containing iodine at the recommended dose during pregnancy, compared with iron and folic acid, does not affect women's urinary iodine concentration in rural Malawi: a secondary outcome analysis of the ILINS DYAD trial  
*Seth Adu-Afarwuah, Charles D Arnold, Kenneth Maleta, Per Ashorn, Ulla Ashorn, Josh M Jorgensen, Yue-Mei Fan, Mnyanga Nkhoma, Jaden Bendabenda, Andrew Matchado and Kathryn G Dewey* 3049

- Double burden of malnutrition and its association with infant and young child feeding practices among children under-five in Thailand  
*Leshawn Benedict, Seo Ah Hong, Pattanee Winichagoon, Phudit Tejavittaddhana and Vijj Kasemsup* 3058

**Interventions**

- The effect of school feeding programme on class absenteeism and academic performance of schoolchildren in Southern Ethiopia: a prospective cohort study  
*Tsion A Desalegn, Samson Gebremedhin, Fikadu R Alemayehu and Barbara J Stoecker* 3066
- Increasing dietary calcium intake of children and their parents: a randomised controlled trial  
*Jessica E Bourne, Kathleen A Martin Ginis, Andrea C Buchholz, Skylar Schmidtke and Mary E Jung* 3075
- School-based interventions for the treatment of childhood obesity: a systematic review, meta-analysis and meta-regression of cluster randomised controlled trials  
*Tarcisus Jian Hui Ho, Ling Jie Cheng and Ying Lau* 3087
- Growing Healthy Minds, Bodies, and Communities: early childhood teachers' perceptions of a nutrition-integrated pilot curriculum  
*Alicia C Stapp, Laurel Lambert, Georgianna Mann and Kenya Wolff* 3100

**Public policies**

- Ultra-processed food industry regulation for tackling obesity and diet-related non-communicable diseases in the Brazilian legislature: many proposals, no enactments  
*Aline Brandão Mariath and Ana Paula Bortoletto Martins* 3110
- Determinants of exclusive breast-feeding discontinuation in southeastern Brazil, 2008–2013: a pooled data analysis  
*Edinalva Neves Nascimento, Cláudio Leone, Luiz Carlos de Abreu and Gabriela Buccini* 3116
- How food companies use social media to influence policy debates: a framework of Australian ultra-processed food industry Twitter data  
*Daniel Hunt* 3124
- Governmental programmes associated with food insecurity among communities of descendants of enslaved blacks in Brazil  
*Camilla Christine de Souza Cheroi, Aline Alves Ferreira and Rosana Salles-Costa* 3136
- The idealisation of bottle feeding: content analysis of feeding bottles and teats packages in Uruguay  
*Florencia Alcázar, Lucia Antúnez, Leticia Vidal, Carolina de León, Alejandra Girona, Raquel Rodríguez, Ana Giménez, Isabel Bove and Gastón Ares* 3147
- Prediction of disability-adjusted life years for diseases due to low fruit intake in 2017–2040 in Japan  
*Daisuke Yoneoka, Shuhei Nomura, Shiori Tanaka, Aya Ishizuka, Ueda Peter, Santosh Kumar Rauniyar, Keiji Nakamura, Hisayuki Uneyama, Naoki Hayashi and Kenji Shibuya* 3156
- Implementation of Universal Infant Free School Meals: a pilot study in NE England exploring the impact on Key Stage 1 pupil's dietary intake  
*Suzanne Spence, John NS Matthews, Lorraine McSweeney, Maisie K Rowland, Phoebe Orango and Ashley J Adamson* 3167
