Editor: Prof. J. M. Bocheński Ph.D.

EINSTEIN und die Sowjetphilosophie

Volume 1: Die Grundlagen/Die spezielle
Relativitätstheorie

BY S. MÜLLER-MARKUS PH.D.

This work – the result of a three-year study of the pertinent Russian sources – offers the Western philosopher and physicist a picture of Soviet discussion since 1950 on the theory of relativity. In addition, an attempt is made to offer an interpretation of the basic problems which have arisen from the conflict of modern physics with philosophical materialism.

1960, xvi + 481 p., Dfl 43.75 or 87½ s.

Ockham: Philosophical Writings

PHILOTHEUS BOEHNER OFM

The selection contained in this volume gives a balanced introductory view of Ockham's writings on logic, metaphysics and ethics. Latin and English are printed face to face, and the whole has been edited and translated by Fr. Philotheus Boehner, one of the leading authorities on Franciscan philosophy of the Middle Ages.

Practical Reason and Morality

A Study of Immanuel Kant's Foundations for the Metaphysics of Morals

A. R. C. DUNCAN

The present author examines afresh and in detail the contents of the *Foundations for the Metaphysics of Morals* and shows that it is not, as has hitherto been mistakenly assumed, an ethical treatise but is what it claims to be—the foundations for a metaphysics of morals, a critique of practical reason, written by the man who had already produced the *Critique of Pure Reason*.

The Use of Reason

E. R. EMMET M.A.

A study of the handling of words and sentences, and the principles of valid reasoning.

'... an excellent introduction to the use of reason ... highly recommended for Sixth Form study.' *The A.M.A. Journal*

'... the great value of the book is that it approaches logic gently through a discussion of the familiar use of words and this theme recurs throughout ... The author dwells much on induction and the scientific method, and these chapters at least should be compulsory reading for all those beginning to specialize in science. ... Mr. Emmet cannot be praised too highly for the exercises he has attached to each chapter ... used as the author intended, these exercises make the book into a complete course for self-instruction.

Another outstanding feature is the dry humour which enlivens even the most technical parts and should help to make many rules memorable.'

LONGMANS

HYPOCRISY AND HUMOUR

E. J. OLIVER

15/- net

British "hypocrisy" is a world legend. In a splendid survey ranging from Aesop to Orwell, Mr. Oliver shows how hypocrisy makes us tick.

MAN AND MORALS

D. J. B. HAWKINS

10/6 net

The possibility of morals without religion is a question that has been hotly debated for some time, not the least on the B.B.C. Canon Hawkins examines the rational implications of morality in this book and considers the implications of the natural law.

AN INTRODUCTION TO WESTERN PHILOSOPHY

RUSSELL COLEBURT

18/- net

An examination of the questions about existence which Western man first asked himself and continued to ask through the centuries.

SHEED & WARD

An Introduction to Peirce's Philosophy

by JAMES FEIBLEMAN

An attempt to organize the main outlines of Peirce's thoughts and to present them systematically for the convenience of those who wish to become acquainted with the depth and range of the first and greatest of American philosophers. 50s.

The Integral Philosophy of Sri Aurobindo

Edited by HARIDAS CHAUDURI and FREDERIC SPEIGELBERG

A symposium consisting of articles contributed by thirty eminent scholars who have discussed different aspects—philosophical, psychological, ethico-religious, political, etc.—of Sri Aurobindo's contribution to civilization.

42s.

The Brahma Sutra

by Dr. SIR S. RADHAKRISHNAN

A study of one of the spiritual and historical classics of India. Of the highest erudition and authority, it will prove invaluable to all those who are interested in the problem of man's spiritual quest and fulfilment. 42s.

The Paradox of Tragedy

by D. D. RAPHAEL

Two essays which discuss the philosophical aspects of tragedy and drama; and show why we enjoy tragic drama even with its themes of death and disaster. 16s.

Human Potentialities

by GARDNER MURPHY

An exploration of the future directions of human development. "A scholarly work but a highly readable and informative one."—*John O' Londons* 25s.

The Human Spirit

Edited by WHIT BURNETT

Forty famous people set forth their most intense personal observations and experiences, and reveal in a profoundly personal way what for them are the most significant aspects of living. 25s.
