**Publisher:** Katy Christomanou

**Special sales and supplements:**

This Journal accepts relevant advertisements and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplements on behalf of academic and corporate collaborators. Please contact Katy Christomanou at the Cambridge address for further details. E-mail: [kchristomanou@cambridge.org](mailto:kchristomanou@cambridge.org)

**Subscription information:**

*British Journal of Nutrition* is an international journal published by Cambridge University Press on behalf of The Nutrition Society. The twelve issues starting January 2009 comprise Volume 101, the twelve issues starting July 2009 comprise Volume 102.

**Annual subscription rates:**

Volumes 101/102 (24 issues):  
Internet/print package £917/\$1788/€1469  
Internet only: £803/\$1566/€1283  
Print only: £874/\$1704/€1420

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Back volumes** are available. Please contact Cambridge University Press for further information.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**US POSTMASTERS:** please send address corrections to *British Journal of Nutrition*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, New York 10994-2133.

**Directions to Contributors** are available from the Society at the address below or can be found on the Society's website at <http://www.nutrition society.org> (an abbreviated Notes for Authors can be found inside the back cover).

**Offprints:** The author (or main author) of an accepted paper will receive a copy of the PDF file and a voucher copy of the issue in which their paper has been published. There will be an option to purchase paper offprints, these should be ordered at proof stage. No page charges are levied by this journal.

**Copyright:** As of 1 July 2000 the copyright of all articles submitted to *British Journal of Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Publications Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. Neither the Society nor Cambridge University Press accepts responsibility for any trade advertisement included in this publication.

This journal is printed on acid-free paper from renewable sources. Printed in the UK by Bell & Bain Ltd., Glasgow.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

*British Journal of Nutrition* is covered in Current Contents®/Agriculture, Biology & Environmental Sciences, SciSearch®, Research Alert®, Current Contents®/Life Sciences, Index Medicus® (MEDLINE®), AGRICOLA®, CAB Abstracts™, Global Health, BIOSIS® Database, EMBASE/Excerpta Medica and Elsevier BIOBASE/Current Awareness in Biological Sciences, CINAHL, and Chemical Abstracts Service.

**Register Now**  
for the most-comprehensive  
program in the field of obesity!

**OBESITY 2009**  
**THE OBESITY SOCIETY**

27th Annual Scientific Meeting

WASHINGTON, DC    OCTOBER 24-28, 2009

Obesity 2009 brings together the most-prestigious players in the field of obesity, from world-renowned basic and clinical researchers and clinicians to educators, advocates and practitioners. Providing scientific, educational and networking opportunities, this is the event of the year for all obesity professionals, increasing knowledge, stimulating research, and promoting prevention and better treatment for those affected by obesity.

**Sessions in five thematic tracks offer content covering:**

- ★ Cell and Molecular Biology
- ★ Integrative Biology
- ★ Clinical Studies
- ★ Population Studies
- ★ Clinical / Professional Practice

**Program sessions include:**

- ★ Key Lectures
- ★ Symposia
- ★ Workshops
- ★ Oral and Poster Presentations

**Exhibit Hall**

A must-see for all obesity professionals! A natural extension from the science in the sessions, the Exhibit Hall will feature an exposition of the newest and most innovative products, services and technology in the obesity field.

**Join Us in DC! [www.obesity.org](http://www.obesity.org)**

(Contents continued from back cover)

Age dependence of plasma phospholipid fatty acid levels: potential role of linoleic acid in the age-associated increase in docosahexaenoic acid and eicosapentaenoic acid concentrations. <i>R. H. M. de Groot, M. P. J. van Boxtel, O. J. G. Schiepers, G. Hornstra &amp; J. Jolles</i>	1058–1064
Quercetin reduces systolic blood pressure and plasma oxidised low-density lipoprotein concentrations in overweight subjects with a high-cardiovascular disease risk phenotype: a double-blinded, placebo-controlled cross-over study. <i>S. Egert, A. Bosy-Westphal, J. Seiberl, C. Kürbitz, U. Settler, S. Plachta-Danielzik, A. E. Wagner, J. Frank, J. Schrezenmeir, G. Rimbach, S. Wolfram &amp; M. J. Müller</i>	1065–1074
<b><i>Dietary Survey and Nutritional Epidemiology</i></b>	
Plant foods and the risk of cerebrovascular diseases: a potential protection of fruit consumption. <i>A. Mizrahi, P. Knekt, J. Montonen, M. A. Laaksonen, M. Heliövaara &amp; R. Järvinen</i>	1075–1083
<b><i>Behaviour, Appetite and Obesity</i></b>	
Body mass index bias in defining obesity of diverse young adults: the Training Intervention and Genetics of Exercise Response (TIGER) Study. <i>A. S. Jackson, K. J. Ellis, B. K. McFarlin, M. H. Sailors &amp; M. S. Bray</i>	1084–1090
Sip size of orangeade: effects on intake and sensory-specific satiation. <i>P. L. G. Weijzen, P. A. M. Smeets &amp; C. de Graaf</i>	1091–1097

**Directions to Contributors - Concise Version****(Revised August 2007)**

The *British Journal of Nutrition* is an international peer-reviewed journal that publishes original papers, review articles, technical notes and short communications in English in all branches of nutritional science. **Prospective authors should note that they (or their institutions) now retain the copyright of their material published in the *British Journal of Nutrition*.** As a contributor you are asked to follow the guidelines set out below. For detailed information on the presentation of the technical content of your paper please see the full version of the **Directions to Contributors**, which can be downloaded from the Nutrition Society website (<http://www.nutrition-society.org>). Prospective authors may also contact the Publications Office directly on + 44 (0)20 7605 6555 (telephone), +44 20 7602 1756 (fax), or [edoffice@nutsoc.org.uk](mailto:edoffice@nutsoc.org.uk) (email).

**Papers should be accompanied by a statement to the effect that the conditions laid down in the full Directions to Contributors are accepted. The statement should affirm that the submission represents original work that has not been published previously and which is not currently being considered by another journal. It should also confirm that each author has seen and approved the contents of the submitted paper. At the time of acceptance the authors should provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer). The Licence to Publish is available on the Nutrition Society website (<http://www.nutrition-society.org>). All relevant financial interests should be declared.**

**Text.** Papers should be submitted with 1.5 line spacing and margins of at least 2 cm on each side. Text should be printed without underlining, bold or italics (except for scientific names). Standard abbreviations (e.g. Fig. and Figs.) and SI units should be used. **Typescripts can be submitted as Word, WordPerfect, EPS, Text, Postscript or RTF files. A Word processing format is required for production purposes once papers have been accepted. When substantial revisions are required to typescripts, authors are given the opportunity to do this once only, the need for any further changes should at most reflect any minor issues.**

**Title Page.** The first page should include a concise, informative title together with the names and addresses of the authors. A contact name for correspondence should be given and telephone, fax and email addresses provided. Authors should supply three or four key words or phrases (each containing up to three words). A short title of up to 45 characters is required as a running head.

**Abstract.** Each paper should commence with an accurate and informative abstract, written as a single paragraph. It should be complete in itself and intelligible without reference to the text or figures, and should not exceed 250 words.

**Tables.** Tables should be reduced to the simplest form, and should not duplicate information in the text or figures. They should be typed on separate pages, one page for each Table, at the end of the article and carry headings describing their content.

**Illustrations.** The original illustrations should accompany the submitted typescript. Text figures, line drawings, computer-generated figures and graphs should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they clearly contribute to the text. All figures should be numbered and legends should be provided.

Note that authors will be charged 350 GBP for the publication of colour figures. Authors from countries entitled to free journal access through HINARI will be exempt from these charges.

**References.** References should be based on the numbered (Vancouver) system. **When an article has more than ten authors, only the names of the first three should be given followed by *et al.*; give abbreviated journal titles and conform to the following styles:**

- Goel V, Cheema SK, Agellon LB, Ooraikul B & Basu TK (1999) Dietary rhabarb (*Rheum rhabarbarum*) stalk fibre stimulates cholesterol 7 $\alpha$ -hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. *Br J Nutr* **81**, 65–71.
- Jenkins DJ, Kendall CW, Marchie A, *et al.* (2003) The effect of combining plant sterols, soy protein, viscous fibres, and almonds in treating hypercholesterolemia. *Metabolism* **52**, 1478–1483.
- Brandtzaeg P (2003) Role of local immunity and breast-feeding in mucosal homeostasis and defence against infections. In *Nutrition and Immune Function*, pp. 273–320 [PC Calder, CJ Field and HS Gill, editors]. Wallingford, Oxon: CAB International.
- Stock M & Rothwell NJ (1982) *Obesity and Leanness: Basic Aspects*. London: John Libbey.

Citations should be numbered consecutively in the order in which they first appear in the text using superscript Arabic numerals in parentheses, e.g. 'The conceptual difficulty of this approach has recently been highlighted<sup>(1,2–4)</sup>. If a reference is cited more than once the same number should be used each time.

**Referees.** Authors are asked to submit the names of up to four scientists who would be well-qualified to review the paper; however, no more than one such reviewer will be used. The email addresses and institutions of the named reviewers should be given.

**Proofs.** PDF page proofs will be emailed to authors for checking, and should be returned within 3 days (by fax or Express mail) to the BJN Production Editor, Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, UK; fax +44 1223 325802, email [bjnproduction@cambridge.org](mailto:bjnproduction@cambridge.org)

**Typescripts.** The *British Journal of Nutrition* operates an on-line submission and reviewing system (eJournalPress). **Authors should submit to the following address:** <http://bjn.msubmit.net/> If any difficulties are encountered please contact the Publications Office (details above) immediately.

**Contents**

**Invited Commentary**

- The unparalleled benefits of fruit.  
*M. A. Martínez-González & R. M. Lamuela-Raventos* 947–948

**Short Communication**

- Fruit and vegetable consumption in older individuals in Northern Ireland: levels and patterns.  
*K. M. Appleton, R. McGill & J. V. Woodside* 949–953
- Leptin concentrations and the immune-mediated reduction of feed intake in sheep infected with the nematode *Trichostrongylus colubriformis*.  
*A. W. Greer, Y. R. Boisclair, M. Stankiewicz, R. W. McNulty, N. P. Jay & A. R. Sykes* 954–957
- Dietary n-3 polyunsaturated fatty acids enhance metastatic dissemination of murine T lymphoma cells.  
*A. Mannini, N. Kerstin, L. Calorini, G. Mugnai & S. Ruggieri* 958–961
- Inhibition of markers of bone resorption by consumption of vitamin D and calcium-fortified soft plain cheese by institutionalised elderly women.  
*J.-P. Bonjour, V. Benoit, O. Pourchaire, M. Ferry, B. Rousseau & J.-C. Souberbielle* 962–966

**Molecular Nutrition**

- Attenuation of proteolysis and muscle wasting by curcumin c3 complex in MAC16 colon tumour-bearing mice.  
*R. A. Siddiqui, S. Hassan, K. A. Harvey, T. Rasool, T. Das, P. Mukerji & S. DeMichele* 967–975

**Metabolism and Metabolic Studies**

- Increased bioavailability of hesperetin-7-glucoside compared with hesperidin results in more efficient prevention of bone loss in adult ovariectomised rats.  
*V. Habauzit, I.-L. Nielsen, A. Gil-Izquierdo, A. Trzeciakiewicz, C. Morand, W. Chee, D. Barron, P. Lebecque, M.-J. Davicco, G. Williamson, E. Offord, V. Coxam & M.-N. Horcajada* 976–984
- Quantitative aspects of the metabolism of lignans in pigs fed fibre-enriched rye and wheat bread.  
*H. N. Lærke, M. A. Mortensen, M. S. Hedemann, K. E. B. Knudsen, J. L. Penalvo & H. Adlercreutz* 985–994
- Marine n-3 fatty acids promote size reduction of visceral adipose depots, without altering body weight and composition, in male Wistar rats fed a high-fat diet.  
*M. H. Rokling-Andersen, A. C. Rustan, A. J. Wensaas, O. Kaalhus, H. Wergedahl, T. H. Røst, J. Jensen, B. A. Graff, R. Caesar & C. A. Drevon* 995–1006
- Dietary lipid level affects growth performance and nutrient utilisation of Senegalese sole (*Solea senegalensis*) juveniles.  
*P. Borges, B. Oliveira, S. Casal, J. Dias, L. Conceição & L. M. P. Valente* 1007–1014
- Ruminal metabolism of flaxseed (*Linum usitatissimum*) lignans to the mammalian lignan enterolactone and its concentration in ruminal fluid, plasma, urine and milk of dairy cows.  
*N. Gagnon, C. Côrtes, D. da Silva, R. Kazama, C. Benchaar, G. dos Santos, L. Zeoula & H. V. Petit* 1015–1023
- Dietary diacylglycerol oil has no effect on hypertriacylglycerolaemia in lipoprotein lipase-deficient cats.  
*C. A. Datz, R. C. Backus & K. L. Fritsche* 1024–1029

**Human and Clinical Nutrition**

- Availability of free fruits and vegetables at canteen lunch improves lunch and daily nutritional profiles: a randomised controlled trial.  
*C. K. Lachat, R. Verstraeten, B. De Meulenaer, J. Menten, L. F. Huybregts, J. V. Camp, D. Roberfroid & P. W. Kolsteren* 1030–1037
- Antiretroviral therapy with or without protease inhibitors impairs postprandial TAG hydrolysis in HIV-infected men.  
*L. J. Ware, A. G. A. Jackson, S. A. Wootton, G. C. Burdge, J. F. Morlese, G. J. Moyle, A. A. Jackson & B. G. Gazzard* 1038–1046
- Short-term effects of replacing milk with cola beverages on insulin-like growth factor-I and insulin-glucose metabolism: a 10 d interventional study in young men.  
*C. Hoppe, M. Kristensen, M. Boiesen, J. Kudsk, K. F. Michaelsen & C. Mølgaard* 1047–1051
- Dietary intakes of children with Crohn's disease.  
*R. Pons, K. E. Whitten, H. Woodhead, S. T. Leach, D. A. Lemberg & A. S. Day* 1052–1057
