## EDITORIAL POLICY

The *British Journal of Political Science* is an independent journal, whose policy is set by its editorial board. It is committed to no methodological orthodoxy over and above the normal canons of scholarship: clear and consistent use of words, logical and mathematical validity, and the use of appropriate evidence to substantiate empirical statements. Contributions are invited in all fields of political science. Work addressed to problems of general significance to students of politics will be published whatever the period(s) or place(s) drawn upon for evidence.
