CONVENER'S INVITATION

— Dear Colleagues

Preparations are well underway for the 68th Annual Scientific Meeting of ASOHNS to be held in Perth in March 2018.

The organising committee have finalised a list of eminent international speakers and I am delighted to invite you to Perth for this meeting.

The Australian surgical community is addressing challenges relating to behaviour and culture. There have also been exciting developments within our specialty that reflect our desire for continuing improvement and application of innovation to the benefit of our patients. All this is reflected in the theme of our meeting: "Brave New World".

It will be held in the recently refurbished Crown Convention Centre situated on the banks of Perth's Swan River, offering an attractive and pleasing environment in close proximity to the sophisticated and modern CBD area.

I hope you will be able to attend the meeting and perhaps extend your stay for a holiday to visit some fascinating and beautiful areas in the Western Australia state. At that time of year, the early autumn weather will be balmy and pleasant.

I look forward to welcoming you to Perth.

Francis Lannigan

Avant practice insurances. By doctors, for doctors.

Avant's practitioner and practice insurances are designed to fit together like this...

Dr Nicola Denton
Avant member

Comprehensive insurance for your practice

Avant Practitioner Indemnity to protect individual healthcare professionals working in the practice.

Add **Avant Practice Medical Indemnity** to cover claims against the practice entity and actions of staff providing healthcare in the practice.

Top it off with new **Avant Business Insurance** with options to cover the practice's property, loss of revenue, income or profit, and liabilities*.

With the introduction of Avant Business Insurance, you can now take advantage of a suite of interlocking covers designed to fit together for comprehensive practitioner and practice protection. When different parts of your practice are covered by different companies, things can be overlooked or you can be forced to

pay for something you already have - or don't need. But the way Avant Business Insurance fits with Avant Practitioner Indemnity and Avant Practice Medical Indemnity, you can now have the insurances you need. And nothing you don't.

For comprehensive cover for your practice, call Avant today

SUMMARY GUIDANCE FOR AUTHORS

The Journal of Laryngology & Otology (JLO) is a peer-reviewed publication, and is indexed/abstracted in most major databases including Index Medicus, MEDLINE/ PubMed, Science Citation Index, Current Contents and EMBASE.

Only a very brief summary of the submission requirements is presented here: when preparing their manuscripts, authors must consult and comply with the full Instructions for Authors on the JLO website at <http://www.jlo.co.uk/docs/submittinarticles.htm>. Adherence to these will speed up the editorial process.

All contributions are considered for publication on the understanding that they have been submitted solely to the JLO and that they have not previously been published. Contributions in the following categories will be considered: Main Articles (reporting clinical research or audit), Review Articles, Historical Articles, Short Communications (including 'How I do it'), Clinical Records (case reports), and Letters to the Editors.

Submission

All contributions must be accompanied by a covering letter, which must be signed by **all** authors. Manuscripts should be submitted to the Editors:

- either **online** via www.jlo.co.uk
- or **by post** to the Editorial Office, *The Journal of Laryngology & Otology*, Maybank, Quickley Rise, Chorleywood, Hertfordshire WD3 5PE, UK (Tel/Fax: +44 (0)1923 283561; E-mail j.l.o@btconnect.com). One copy should be submitted together with a copy on a USB stick (including separate TIFF files of any figures) and two printed on paper (together with two sets of figures).

The text of the manuscript (incorporating all tables and the figures legends, but **not** the figures themselves) must be saved as a Microsoft Word document or an RTF file (i.e. 'rich text format'). Use double-spaced, unjustified text throughout. The title page must contain the full title of the paper; the names and qualifications of all authors; the departments(s) and institution(s) where the work was carried out; and the name, postal and e-mail address, and telephone and fax numbers of the author responsible for all communications about the manuscript and proofs. An Abstract (maximum 150 words) and Key words must be provided for all contributions (except Letters).

References should be identified in the text by superscript Arabic numerals and listed at the end of the manuscript in the order in which they are first cited in the text. The tables feature of the word processor should be used to prepare Tables, and both these and the list of Figure legends should appear on separate pages at the end of the manuscript. All Figures must be saved as separate TIFF files at a resolution of 600 dpi.

The authors of all material accepted for publication will be required to assign copyright to JLO (1984) Ltd; a form for this purpose and for ordering offprints will accompany the proofs. The proofs will be sent by e-mail to the corresponding author as a PDF file, and should be corrected and returned within three working days.
