
Case Studies and the Statistical Worldview: Erratum

Timothy J. McKeown

McKeown's review article in the Winter 1999 *International Organization* (volume 53, no. 1, pages 161–90) contains an error in footnote 65 on page 179. The correct text should read:

65. The *Social Sciences Citation Index* shows that Cohen and Axelrod's paper has been cited only fourteen times in the last ten years.
