ENTERED AT STATIONERS' HALL

"We have experimentally proved that Listerine is a powerful antiseptic, preventing the development of bacteria and decomposition of vegetable infusions."—*British Medical Journal*, May 3, 1890.

LISTERINE

*A safe, non-poisonous, unirritating
antiseptic solution*

LISTERINE is particularly useful in the treatment of abnormal conditions of the mucosa, and admirably suited for a wash, gargle, or douche, in catarrhal conditions of the nose and throat.

LISTERINE in proper dilution may be freely and continuously used without prejudicial effect, either by injection or spray, in all the natural cavities of the body.

LISTERINE embodies a two-fold antiseptic effect, in that after the evaporation of its volatile constituents—thyme, eucalyptus, mentha, gaultheria, and ethyl alcohol—a film of boracic and benzoic acids remains upon the surface to which Listerine has been applied, affording more prolonged antiseptic protection.

LISTERINE is a trustworthy surgical dressing; it has no injurious effect upon the tissues in which the healing process is going on.

LISTERINE in teaspoonful doses will often afford relief in fermentative dyspepsia, and is largely prescribed, with excellent results, in the various forms of diarrhœa occurring in infants and adults.

LISTERINE literature, including special pamphlets upon *Respiratory Diseases*, may be had, by physicians, upon application to

Immunisation against Hay Fever.

THE DEPARTMENT FOR THERAPEUTIC INOCULATION, ST. MARY'S HOSPITAL, LONDON, W., prepares for supply to the Medical Profession through the agency of Messrs. Parke, Davis & Co.

“ POLLACCINE ” (POLLEN VACCINE FOR HAY FEVER)

to be administered subcutaneously for the production of immunity to pollen toxin BOTH AS A PROPHYLACTIC AND CURATIVE OF HAY FEVER.

A HAY FEVER REACTION OUTFIT is also supplied, which affords a means of determining

- (a) whether a patient is susceptible to pollen toxin,
- (b) the degree of such susceptibility,
- (c) the dosage of “Pollaccine” suited to any case.

N.B.—The winter and early spring are the best seasons for administering prophylactic injections.

Further particulars will be supplied on request by

PARKE, DAVIS & Co., 50, Beak St., Regent St., **LONDON, W. 1.**

ROGERS' STANDARD SPRAYS

have earned a world-wide reputation ON THEIR MERITS.

They are the outcome of many years' experience of the requirements of Laryngologists, Rhinologists and Otologists; they have received the unqualified approval of eminent specialists by whom they are constantly used and prescribed.

They comprise a series of absolutely reliable Sprays, scientifically designed and perfectly made.

ROGERS' MINIATURE LARYNGEAL SPRAY

(made also for Nose or Throat and for Post-Nasal use).

ROGERS' CRYSTAL NEBULIZER.

Enquiries invited on any matter pertaining to Sprays, Atomizers, etc.

ROGERS' No. 1 SPRAY for Nose or Throat.

(Made also in Laryngeal & Post-Nasal forms.)

ROGERS' STANDARD SPRAYS ARE MADE IN LONDON BY

FRANK A. ROGERS,
PHARMACIST,
327, OXFORD ST., LONDON, W. 1.

CENTRAL LONDON THROAT AND EAR HOSPITAL

GRAY'S INN ROAD (Near King's Cross Stations.)

Large Out-Patient Clinics. Over 12,000 new patients last year.

In-Patient Department, 43 beds.

The work carried on at this Hospital comprises :

1. *The Daily Out-Patient Clinic.*

Monday, Wednesday, Thursday, Friday, Saturday, 2 p.m.

Tuesday, 5 p.m.

Conducted by

DR. ABERCROMBIE

DR. ATKINSON

DR. NICOL RANKIN

MR. STUART LOW

DR. DAN MCKENZIE

MR. ARCHER RYLAND

DR. ANDREW WYLIE

MR. HAROLD KISCH

2. *The Minor Operations.*

These are performed at 9 a.m. on Monday, Tuesday, Wednesday, Thursday, Friday.

3. *The In-Patient Department.*

Major Operations.

These take place at 2 o'clock on Monday, Tuesday, Wednesday, Thursday, Friday.

The list of operations is to be seen on the notice board in the Out-patient Consulting Room.

4. *Lectures and Demonstrations.*

Courses of Practical Instruction are given throughout the year by Members of the Staff, on Tuesdays and Fridays, at 3 p.m. punctually.

The Courses consist of two classes twice a week devoted to Anatomy, Pathology, Diagnosis and Treatment of the special diseases dealt with at the Hospital. They may be joined at any time.

A **Surgical Anatomy and Operative Surgery Class** is held when desired. The teaching is practical and demonstrative, and is illustrated by diagrams, models, specimens and instruments.

5. *The Pathological Laboratory*

Is at all times available to students. Dr. Wyatt Wingrave, Pathologist to the Hospital, is in attendance Monday, Wednesday, Friday, 3 p.m.

Clinical Assistants

Are appointed from among those gentlemen who have enrolled themselves for attendance on the practice of the Hospital.

Further particulars may be had on application to the Dean.

Fees.

For attendance on the practice of the Hospital (Clinical Assistants)—

Three months ... 5 guineas.

Six " " ... 8 "

Perpetual ticket ... 10 "

Operative Surgery Class ... 5 "

Clinical Assistants are admitted to the Lectures and Demonstrations free.

HAROLD KISCH, F.R.C.S.,
Dean.

RICHARD KERSHAW,
Secretary Superintendent.
