Religions of India in Practice

Edited by Donald S. Lopez, Jr.

This inaugural volume of *Princeton Readings in Religions* brings together the work of thirty scholars of the religions of India in an anthology designed to re-shape the ways in which the religious traditions of India are understood. The book contains translations of forty-five works, most of which have never before been available in a Western language.

"This volume . . . is unique in its focus on vernacular sources rather than classical . . . texts. . . . The complex array of doctrines and contesting ideologies is like the murmur of a mighty river providing fascinating reading for both scholar and general reader."—*Library Journal*

The Savage Freud and Other Essays on Possible and Retrievable Selves

Ashis Nandy

One of India's leading public intellectuals, Ashis Nandy is a highly influential critic of modernity, science, nationalism, and secularism. In this, his most important collection of essays so far, he seeks to locate cultural forms and languages of being and thinking that defy the logic and hegemony of the modern West.

"With his characteristic brilliance, Nandy offers provocative and insightful readings of the cultural politics of colonial and postcolonial India."

Strategic Capitalism

Private Business and Public Purpose in
Japanese Industrial Finance

Kent E. Calder

Was Japan's economic miracle generated primarily by the Japanese state or by the nation's dynamic private sector? In addressing this question, Kent Calder's richly detailed study offers a distinctive reinterpretation of Japanese government-business relations.

"Calder's book is well documented, lucid, and convincing—truly a landmark study."
