

INDEX OF SUBJECTS

	PAGE
“Agglutinability factor” in Dreyer’s system	333
Air vitiated by storage of tobacco, etc. in closed spaces	205
Bacteria, behaviour in fluid cultures	133
Bacterial infection, experiments on mode of spread	350
Blackwater fever	208
Bread, rope and sourness in	380
Chemotactic effect of Osmosis on leucocytes	309
Defence rupture and antagonistic action of salts	72
Dystrophy in infants and children	283
Food preservation, <i>see</i> Herrings	
Food, <i>see</i> Milk, Bread	
Heat absorption by different kinds of cloth	245 <i>et seq.</i>
” ” paints and building materials	254
Herrings, experiments on cold storage of	75
Immunity, <i>see</i> Tetanus, Meningococci, Defence rupture, Wassermann, Typhus, Chemotactic, Agglutinability, Bacterial	
Infection, <i>see</i> Bacterial	
International Congress of Comparative Pathology (<i>notice</i>)	131
Malaria in England, influence of temperature and humidity	320
Malaria in South Africa and a mosquito survey	344
Malaria, Wassermann test in malaria patients	277
Malnutrition, <i>see</i> Xerophthalmia, Dystrophy	
Meningococci, serological reactions and antisera for	3
Milk churns, enquiry regarding cleanliness of	84
Milk supply of Edinburgh	107
Mosquitoes, <i>see</i> Malaria	
Tetanus in Home Military Hospitals 1914–1918	1
Thyroid enlargement, prevalence about Hereford	394
Tropical sanitation, <i>see</i> Heat	
Typhus fever, Wilson-Weil-Felix reaction in	115
<i>Vespa orientalis</i> Fabr. as carrier of coliform bacilli	68
Wassermann reactions	87
Wassermann reactions, <i>see</i> Malaria	
Water supply of Egyptian army (filtration, chlorination)	305
Xerophthalmia in infants and children	283
