

CORRIGENDA

The Conversion of β -Carotene to Vitamin A in the Intestine

By S. Y. Thompson, J. Ganguly and S. K. Kon

Vol. 3 (1949), No. 1

p. 54, line 9 from bottom:

The beginning of the sentence should read as follows:

The organ was cut into small pieces; for 15 g. or less, 30 ml....

The Incidence of Nutritional Diseases in Poultry

By J. E. Wilson

Vol. 3 (1949), Nos. 2 & 3

p. 270, line 15:

For weakness in co-ordination read weakness, incoordination.

The Atwater—a Nutritional Unit

By H. M. Sinclair

Vol. 3 (1949), Nos. 2 & 3

In the table, figures in the top lines are expressed as Atwaters/oz. and should be

Atwaters/100 g. They should therefore be multiplied by $\frac{100}{28.35}$.
