
Mongkut, the King of Siam

By ABBOT LOW MOFFAT, *Former Chief, Division of Southeast Asian Affairs, U. S. Department of State*

"Mr. Moffat has written well and widely from a variety of direct and authentic sources. Too many accounts of Mongkut have depended solely on the fanciful and inaccurate writings of Anna Leonowens, the English gentlewoman who was five years a tutor of children at the Siamese court. *Mongkut, the King of Siam* can be read for pure enjoyment. It meets the test also as an excellent work of history."—*New York Times Book Review*

The Philippines

Public Policy and National Economic Development

By FRANK GOLAY, *Cornell University*

"The book is a valuable and, therefore, a welcome addition to the limited literature on Philippine economic policy and development. . . . Here in one volume, the whole range of Philippine economic policy with all its contradictory tendencies, is examined in a scholarly fashion. The contents and the analysis commend themselves not only to economists, but also to political scientists and public administrators."—*Philippine Journal of Public Administration*

OF EXCEPTIONAL INTEREST

INDONESIA AND THE DUTCH

By LESLIE H. PALMIER. This concise, authoritative, and quite human examination of the recent relationship between the Indonesians and the Dutch, beginning in 1900, does much to dispel the impression of irrational action by both sides that has accumulated in much of the Western world. *5 maps.* \$2.90

THE INDIAN MIDDLE CLASSES

Their Growth in Modern Times

By B. B. MISRA. This is the first study ever made of the Indian middle class—which largely created modern India—from the days of the 17th-century Mughal kings in pre-British India to the 1950's. Dr. Misra shows how this middle class came to exist, and why it lacked many of the qualities that modern India desperately needs. (*Royal Institute of International Affairs*) \$7.20

CASTE TODAY

By TAYA ZINKIN. The author, a correspondent in India for *The Guardian* and *The Economist*, describes the Indian caste system: its origins (so far as they are known); how it works; how British ideas affected it; what democracy is doing to caste and caste to democracy; and how, since Independence, the Indian government has tackled the problems it raises. Politics, Personality, and Nation Building

Burma's Search for Identity

by Lucian W. Pye

This study of the search for personal and political identity in Burma brings to light some of the great difficulties which confront a transitional society in creating a modern state system. Mr. Pye examines Burma's political culture, exploring both the historical evolution of the society and the psychological reactions to change. He gathered much of the material for his study in 1958-59 when Burma was experiencing a crisis of national purpose. His intensive interviews with Burmese administrators and politicians show the relationship between public events and private experience, and provide perspectives for understanding Burmese history as a whole. \$7.50

Economic Change in Rural India

Land Tenure and Reform in Uttar Pradesh, 1800-1955

by Walter C. Neale

A valuable contribution to our understanding of the problems of the underdeveloped countries, this carefully documented study traces the history of land tenure and land reform from 1800 to 1955 in Uttar Pradesh, a constituent state of India. Taking issue with the proponents of land reform as a panacea for poverty, Mr. Neale argues that land reform alone will not solve agricultural problems which stem from the vicious circle of underdevelopment and overpopulation and from attitudes embedded in a socio-religious hierarchy. He finds that the lot of the cultivator in Uttar Pradesh ultimately depends upon the injection of new capital and on the provision of alternative employment, with higher productivity. \$7.50
