## THEATRE FESTIVALS OF THE MEDICI, 1539-1637

by A. M. Nagler

"The history of the Medici festivals of the High Renaissance has been retold here with such careful scholarship, and so much of the information appears for the first time in English, that this book is certain to serve as a major reference for the staging methods of this period. The plates are especially important in providing a whole new group of Italian Renaissance scene and costume designs which have not been obtainable before. It is a most valuable addition to our sources on the most inventive years of Italian staging."—*Educational Theatre Journal*. **\$15.00**

### BARTHOLOMEW FAIR

edited by Eugene M. Waith

"A volume which might well serve as a model for its kind. . . . A sense of Elizabethan colloquial pronunciation has been communicated by the preservation of optional contractions most typically reflecting Elizabethan usage. Thus although Jonson is modernized and to some degree normalized, we can manage to taste the verve of the Elizabethan vernacular and the very special flavor Jonson gives to that vernacular. Waith's edition is an especially manageable one. The Yale Ben Jonson produces its glosses at the bottom of the page in a single clear column and without cluttering up its page. . . . The highlight of Waith's performance, however, is his introduction. . . . there can be no doubt that Waith has skillfully laid bare many of the bones, nerves, and bloodvessels beneath this play's surface, and without annihilating the comic spirit which gives the play life."—*Seventeenth-Century News*. cloth **\$3.75**; paper **95¢**

# LIGHT CONTROL

HERE ARE SOME OF THE SIGNIFICANT CONTRIBUTIONS  
TO THE THEATRE LIGHTING ARTS ACHIEVED BY

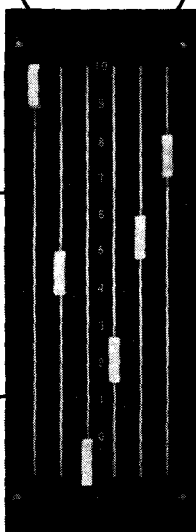

**ARIEL  DAVIS**

IN THE PAST TWO DECADES

**THE MULTI-DIMMER (T)** — The rugged, durable 12,000 watt dimmer has the flexibility of six 2,400 watt dimmers. This compact auto-transformer provides outstanding flexibility, and is not susceptible to burn out thus ensuring long life.

**CHANNEL MOUNT (T)** — This lightweight, yet rugged, mounting system by Ariel Davis combines the functions of pipe batten, wireway and plug-in strip for lighting instruments. It costs less to buy and less to install than old fashioned mounting systems.

**THE TASC DIMMER (T)** — (Transistor Action, Semi-Conductor) — With this controlled rectifier electronic control system, Ariel Davis offers a reliable, remote controlled preset system which can be used by untrained students without risk.

**PARLITERS** — Ariel Davis has been a pioneer in the development of lighting instruments which utilize the highly efficient PAR and R lamp types. These instruments require no maintenance, the long-life lamps are less expensive to operate than the lamps traditionally used in Stage Lighting.

**PAR OPTICAL SPOTLIGHT (T)** — Pioneering work in the use of PAR lamps for stagelighting instruments led to the development of the PAR Optical Spotlight. These instruments have efficient optical systems, framing shutters or an iris system, and utilize the efficient PAR lamp.

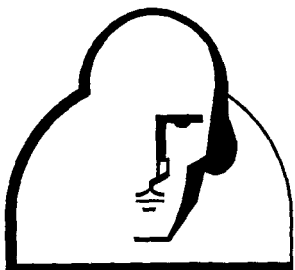

**THE QUICK-CONNECT (T)** — This cordless cross-connect system is more flexible, more compact, easier to operate and less costly than any other system. One glance at the Quick-Connect and you can visually program your entire operation.

# PLAYWRIGHT CONTEST

THE UNIVERSITY OF  
SANTA CLARA  
DEPARTMENT OF  
SPEECH & DRAMA

We seek a rare kind of play: a "religious" drama that is exciting theatre. "Religious" is to be interpreted broadly as "honest treatment of relevant moral problems." The plays need not be sectarian but should not contradict basic Christian beliefs. We do not want seasonal church skits or "nice" moral lessons, but thoughtful grappling with the situations which confront the modern man of religious convictions. The plays must stand on their own as theatre.

## THEATRE AND DRAMA IN THE MAKING

John Gassner, Yale University

Ralph G. Allen, University of Pittsburgh

By concentrating on a few key controversies and ideas in each period and weaving together the complementary strands of theatre history and dramatic criticism, Gassner and Allen have succeeded in presenting an overview of dramatic art from classical antiquity to the present. The wealth of important secondary as well as primary source materials and the authors' thoughtful commentary combine to make this a useful supplement for courses on Western theatre and drama.

# Freud and Stanislavsky

New Directions in the Performing Arts

by Donald Freed

Foreword by Lawrence J. Friedman, M.D., Dean of the Los Angeles  
Institute for Psychoanalysis

Introduction by Guy Stockwell of the Los Angeles Art Theatre

This highly illuminating book is a volume of inestimable value to young actors seriously concerned with their work. Written by the founder of the Los Angeles Art Theatre, it links the study of the Stanislavsky method with the study of modern depth psychology.

Donald Freed believes that the study of art and the study of the unconscious are inevitably joined "because they, and only they, in the whole, wide world, exhibit the phenomenon of timelessness."

Analyzing the contributions of depth psychology in terms of the Stanislavsky system, he shows how the two supplement and support each other.

Through examples from life, and from the theatre, Mr. Freed illustrates how the "Magic If," and the

search for "intent," deepest inner need of the character to be portrayed, contribute to interpretation. He clarifies facets of the character known to all, those known only to the character himself, and those known only to the actor... in preparing for expression of creative truth.

"What is inhibition? How do we attack it so that we can produce Stanislavsky's 'public solitude'?" Mr. Freed asks, and he replies with clear, practical suggestions aimed at giving a performance communicative truth.

In concluding—and controversial—chapters, Mr. Freed tells why he believes our traditional theatre has passed its peak, and why he sees hope in the new, experimental, and "improvisatory" companies, folk and regional groups, and the growing art-film industry.

Here is a book with a vital, challenging concept, a book to be read and reread by all who love the theatre. Order it now. If you don't agree this is one of the most important books on the theatre return it in 10 days for a full refund. Use the coupon at right today.
