

Back issues of this journal

Back issues of this and all other journals published by CAB INTERNATIONAL are available in hard copy. New subscribers to a journal may purchase back issues in accordance with the following discount schedule:

- 1996 and 1995 Volumes** - at the 1996 and 1995 subscription rates respectively
- 1990 - 1994** - 25% off the 1997 subscription rate
- 1985 - 1989** - 50% off the 1997 subscription rate
- 1985 and Previous** - 75% off the 1997 subscription rate

CAB INTERNATIONAL maintains stocks of back issues, but should any issue of a volume be temporarily out of stock at the time of ordering, a high quality photoduplicated copy will be supplied at no extra charge to complete your order. Orders may be placed at your nearest CAB INTERNATIONAL office.

Manuscripts on disk

CAB INTERNATIONAL are happy to announce that we are now able to take all accepted manuscripts in electronic form. This development will help us to further reduce the time between acceptance and publication of papers and will also help reduce the incidence of errors associated with re-keying.

Text:

-  Once your paper has been accepted and is in its final form, you should submit it on disk along with the hard-copy printouts which must be identical to the material on disk (it is essential that the printed version is produced directly from the submitted electronic version - any small errors spotted on the printed version may be indicated in ink).
-  Disks must be labelled clearly with the author's name, title of the journal and the short title of the article. We will accept either 3.5" or 5.25" disks prepared on PC or Macintosh applications.
-  Text should be provided using any of the standard word-processing packages, although we do prefer material in Microsoft Word or WordPerfect.
-  Please be consistent throughout your manuscript and use as few formatting codes as possible; however please use the word processor's facilities to indicate bold, italic, subscript and superscript.
-  Please include tables and equations, however due to conversion problems, these may be typeset using your hard copy material.
-  In the event that we are not able to read your disk we will use the hard copy to prepare the article for publication. Where there is a difference between the disk and the hard-copy, the hard-copy will be used as the definitive version.

Figures:

- We would also like line figures to be supplied in electronic form, however we will ALWAYS require hard copy of the illustrations, and these MUST be identical to the electronic files.
- We would prefer artwork created in Adobe Illustrator, Aldus Freehand, Chemdraw or CorelDraw (either on Mac or PCs).
- In addition to supplying the figure in the original application, please also supply as a TIFF file (.TIF). If a TIFF file is not possible, save as an EPS file or a windows metafile (.wmf)
- Photographs should be supplied as set out in the Notes for Authors or Contributors at the back of this issue. We do not require these electronically.

Seed Science Research

Physiology and Biochemistry

- Job, C., Kersulec, A., Ravasio, L., Chareyre, S., Pepin, R. and Job, D.** The solubilization of the basic subunit of sugarbeet seed 11-S globulin during priming and early germination 225
- Lamont, B. B. and Milberg, P.** Removal of the testa during germination or establishment increases germinant mortality, decay and water loss 245
- Nandi, S., Sen-Mandi, S. and Sinha, T. P.** Active oxygen and their scavengers in rice seeds (*Oryza sativa* cv. IET 4094) aged under tropical environmental conditions 253
- Redfearn, M. and Osborne, D. J.** Effects of advancement on nucleic acids in sugarbeet (*Beta vulgaris*) seeds 261

Ecology

- Grubb, P. J. and Coomes, D. A.** Seed mass and nutrient content in nutrient-starved tropical rainforest in Venezuela 269
- Jankowska-Błaszczuk, M. and Grubb, P. J.** Soil seed banks in primary and secondary deciduous forest in Białowieża, Poland 281
- Walck, J. L., Baskin, J. M. and Baskin, C. C.** A comparative study of the seed germination biology of a narrow endemic and two geographically-widespread species of *Solidago* (Asteraceae). 3. Photoecology of germination 293
- Walck, J. L., Baskin, J. M. and Baskin, C. C.** A comparative study of the seed germination biology of a narrow endemic and two geographically-widespread species of *Solidago* (Asteraceae). 4. Role of soil moisture in regulating germination 303
- Walck, J. L., Baskin, J. M. and Baskin, C. C.** A comparative study of the seed germination biology of a narrow endemic and two geographically-widespread species of *Solidago* (Asteraceae). 5. Effect of dry storage on after-ripening and survivorship 311
- Book Review 319
- Erratum 320
