**COMMONWEALTH INSTITUTE OF ENTOMOLOGY****Proceedings of the 1st International  
Workshop on Biotaxonomy,  
Classification and Biology of  
Leafhoppers and Planthoppers  
(Auchenorrhyncha) of Economic  
Importance****LONDON, 4 OCTOBER–7 OCTOBER 1982**

published by the Commonwealth Institute of Entomology

The leafhoppers and planthoppers (Auchenorrhyncha) have become increasingly important in recent years both as vectors of plant diseases and because of the direct damage they cause to crops, including rice, the staple diet of a large proportion of the world's human population.

Progress in their control has been hindered by problems of taxonomy, classification and biology, and in October 1982 an international workshop was held in London to study these problems. The proceedings are now available and contain about 40 papers presented by contributors from countries worldwide.

Paperback, 210 × 150 mm, approx 500 pp. (April 1983)

Price (including surface postage and packing), £6.50

COMMONWEALTH INSTITUTE OF ENTOMOLOGY

Leading World Information Service  
on Insects & Mites of Economic Importance

---

**PUBLICATIONS**

- **Review of Applied Entomology:** an abstract journal covering the world literature on pests and beneficial arthropods. In two monthly parts: *Series A (Agricultural)* and *Series B (Medical and Veterinary)*.
- **Bulletin of Entomological Research:** a quarterly journal of original research papers on arthropods of economic importance.
- **Distribution Maps of Pests:** giving the world distribution, with supporting references, of individual arthropod pests.
- **Books and Monographs:** on various subjects. Current list available on request.

**RETRIEVAL SERVICES**

- **Computerised Information Retrieval:** from the Commonwealth Agricultural Bureaux Abstracts Database, including *RAE* and all other main CAB abstract journals.
- **Annotated Bibliographies:** collections of abstracts on particular topics. Current list available on request; further bibliographies compiled to order.
- **Micrographic Unit:** facilities for most types of microform work.
- **Library:** a major world collection of research literature on arthropods of economic importance. Open to visitors.

**TAXONOMIC SERVICES**

- **Identification Service:** open to users in all parts of the world. Located in the British Museum (Natural History); over 30 000 insects and mites identified each year.
- **International Training Courses:** held annually in the applied taxonomy of insects and mites.
- **Consultancy:** advice on specific taxonomic problems and involvement of CIE taxonomists in research projects.
