

## The College

### The College Library

#### *Sir James Crichton-Browne*

Visitors to the College Library frequently comment on the distinctive whiskered countenance of Sir James Crichton-Browne peering up from the fireplace.

Sir James presented the photographic portrait to the Royal Medico-Psychological Association in 1933. It was hung in the Library at 11 Chandos Street, the Association's headquarters.

The portrait was the work of C. Vandyke, a member of the Royal Photographic Society, whose studios were situated in Buckingham Palace Road, Victoria.

*Sir James Crichton-Browne 1840–1938. President of the RMPA 1878.*

#### Donations to the Library

We are extremely grateful to members of the College who continue to donate copies of their current works to the Library. During the past six months books have been received from the following authors.

- Dr P. E. Bebbington, *Social Psychiatry: Theory, Methodology and Practice*  
Prof B. J. Carroll, *Psychopathology and the Brain*  
Dr J. G. Cooney, *Under the Weather. Alcohol Abuse and Alcoholism: How To Cope*  
Prof B. Cooper & Prof M. Eastwood, *Primary Health Care and Psychiatric Epidemiology*

- Dr M. N. Cox, *Shakespeare comes to Broadmoor. "The Actors Are Come Hither": The Performance of Tragedy in a Secure Psychiatric Hospital*  
Dr J. Crammer & Dr B. E. Heine, *The Use of Drugs in Psychiatry*  
Prof D. R. Davis, *Scenes of Madness: A Psychiatrist at the Theatre*  
Dr J. Dominian, *Marital Breakdown and the Health of the Nation*  
Dr M. Fitzgerald, *Irish Families Under Stress vols 1–3 Pathways to Child Hospitalisation*  
Dr A. Fry, *Safe Space: How to Survive in a Threatening World*  
Dr T. Furniss, *The Multi-Professional Handbook of Child Sexual Abuse: Integrated Management, Therapy and Legal Intervention*  
Prof A. H. Ghodse, *Misuse of Drugs*  
Prof D. Goldberg, *Common Mental Disorders: A Bio-Social Model*  
Prof P. Graham, *Child Psychiatry: A Developmental Approach*  
Prof. J. C. Gunn, *Mentally Disordered Prisoners. revised edition*  
Dr R. A. Haig, *The Anatomy of Grief: Biopsychosocial and Therapeutic Perspectives*  
Dr D. J. Haldane, *Community, Normality and Difference: Meeting Special Needs*

## Overseas Doctors Training Scheme

### Induction course

The Overseas Doctors Training Scheme was established by the Royal College of Psychiatrists in August 1989. Feedback from trainees placed in post has indicated that their early experience in the UK could have been eased had they been able to attend an induction course which addressed their specific needs. In response to this the Overseas Liaison Committee decided to hold their first induction course on 27 and 28 January 1992 for all the sponsored trainees commencing in post in February. Fourteen doctors attended this course which consisted of a series of short seminars on a variety of subjects together with a talk from trainees already in post and an evening reception.

Day 1 provided a general introduction to medical practice in the UK and the purpose and role of the College in the training of overseas doctors. The Dean welcomed the new trainees to the UK and the Overseas Doctors Training Scheme and this was followed by a short history of the College by Professor Sydney Brandon. The President gave an overview of the development of the College's role in the training of overseas doctors. Miss Buckley, Personnel Manager from the Charing Cross Scheme, gave a most valuable outline of personal and domestic issues embracing finance, emigration and accommodation. This was followed by an overview of rotational training schemes by Dr Robinson and of academic programmes and University courses by Professor

McClelland. The formal induction on Day 1 was completed by an introduction to the Membership Examination by Dr Sheila Mann.

The new overseas trainees were invited to an open forum of overseas doctors at which trainees already in post gave an interesting account of their early experience in the UK.

Day 2 was arranged on an informal, interactive, seminar basis aimed at providing an introduction to the clinical, legal and sociological aspects of psychiatric practice in Britain.

Seminars were led by Professor J. Cox, Dr C. McWilliam and Dr M. Jorsh (University of Keele), and Professor Digby Tantam (University of Warwick). Topics discussed included the range of mental illness in the UK; patterns of psychiatric practice in the UK; role of allied professions; mental health legislation; liaison psychiatry, sociological aspects of psychiatry and the cultural basis of psychiatry in the UK. The level of interaction between the seminar leaders and participants was high throughout the day, both during the lectures and plenary sessions and over the excellent lunch, coffee and tea breaks provided by the College.

Feedback from all participants indicated that this was a valuable learning experience for students and tutors alike. It is planned to hold this induction course twice yearly before trainees take up post on 1 February and 1 August.

Dr C. McWILLIAM  
 Professor R. McCLELLAND
