Eight volumes edited by

**ANDREW W. CORDIER, WILDER FOOTE

The Secretaries-General of the United Nations have filled a far more significant role in international affairs and in the political and constitutional life of the United Nations than was foreseen in 1945. Their public papers—reports, statements, speeches, diplomatic cor-

respondence, press conferences—have become essential source materials. These volumes, edited by men who worked closely with the Secretaries-General, fill a vital need by making available in one set these key documents in the history of the postwar world.
