

Demographics of the Profession

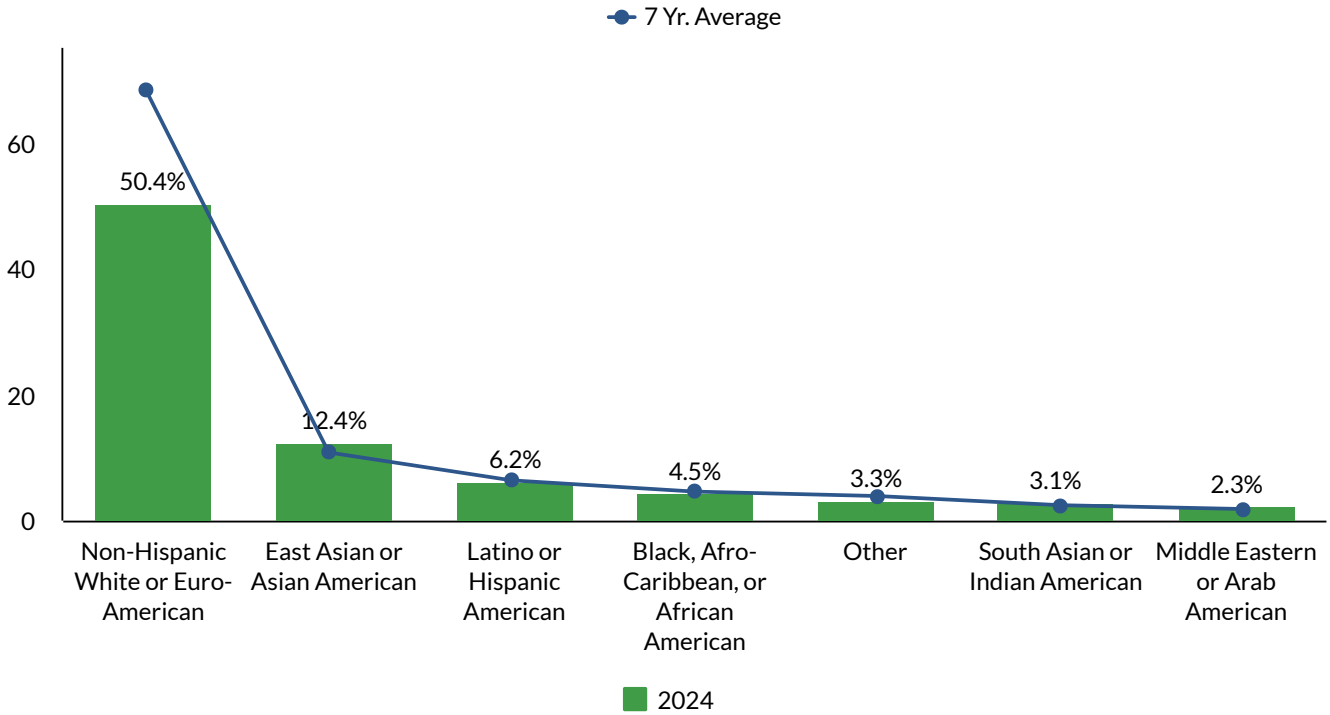

ANA DIAZ | MANAGER, RESEARCH

The American Political Science Association serves a diverse membership around the world. From 2015 onwards, APSA required members to opt in or opt out of providing demographic information. The main demographics provided by our members for 2024 are illustrated below, for any questions contact us at surveys@apsanet.org.

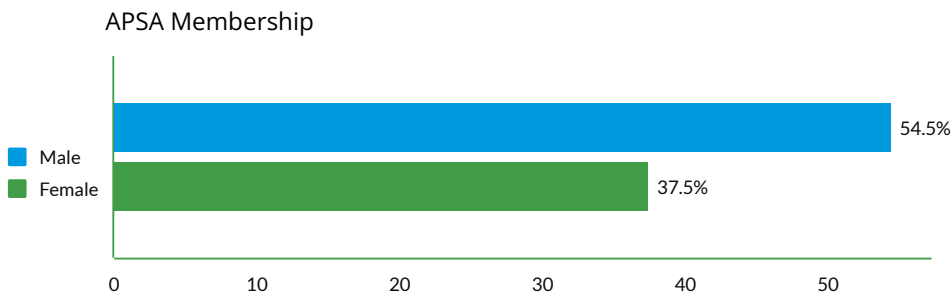

Figures 1 and 2:
(1) APSA Members in the World
& (2) Primary and Secondary Fields of Study

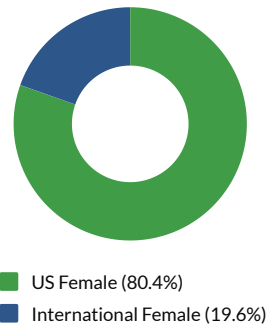

**Figures 3 and 4:
Race/Ethnicity of all APSA Membership as of 2024
& Gender and Nationality**

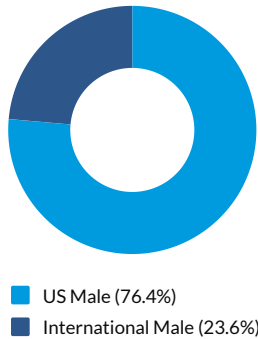

***Percentages for Native American or Alaskan Native (0.2%) are not included in this visualization.

Female Membership

Male Membership

Currently, 54.5% of APSA membership are male, while 37.5% are female. Among our female members, 80.4% are based in the United States, with 20% residing internationally. In comparison, 76% of male members are US-based, and 24% are international.

***Percentages for the category "Other" are not included in this visualization, see APSA's Membership dashboard for more.
