Series B — Applied Mathematics

Volume 39 Part 4  
APRIL 1998

<b>On the acoustic scattering amplitude for a multi-layered scatterer</b> Christodoulos Athanasiadis .....	431
<b>Optimal consumption/portfolio choice with borrowing rate higher than deposit rate</b> Wensheng Xu and Shuping Chen .....	449
<b>On the topology of parametric optimal control</b> Gerhard-W. Weber .....	463
<b>Long wavelength vortices in time-periodic flows</b> Andrew P. Bassom and P. J. Blennerhassett .....	498
<b>On the integrability and exact solutions of the nonlinear diffusion equation with a nonlinear source</b> K. Vijayakumar .....	513
<b>A model for the free-surface flow due to a submerged source in water of infinite depth</b> J.-M. Vanden-Broeck .....	528
<b>The effect of surface tension in porous wave maker problems</b> A. Chakrabarti and T. Sahoo .....	539
<b>Linearised evaporation from a soil of finite depth above a water table</b> V. T. Buchwald and F. Viera .....	557

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Series B is published in volumes comprising four quarterly parts. Information about Series A and other publications of the Society may be found on the inside back cover.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that can be understood by non-specialist readers from the whole applied mathematical community.

Manuscripts (three copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Irrespective of the number of authors, 50 free offprints of each copy are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.
