

Ethics and the Moral Life

BERNARD MAYO

Though written in a contemporary idiom and relying on modern analytical techniques, this book departs from other recent books on ethics in acknowledging the task of relating moral theory not only to actual moral discourse, but also to metaphysical theories about the make-up of man as moral being. 21s

Language and Christian Belief

JOHN WILSON

The author attempts to bridge the long existing gulf between Christian belief and modern British philosophy, in a way designed to be thoroughly intelligible to the layman as well as meeting the standards of the philosophical specialist. 9s 6d

RATIO

edited in co-operation with

**H. B. Acton (London), A. Church (Princeton), H. Cherniss (Princeton),
G. Henry-Hermann (Bremen), K. R. Popper (London)
and J. W. N. Watkins (London)**

by

Julius Kraft (Frankfurt a.M.)

This new journal takes a resolute stand against scepticism and irrationalism and pursues the perennial goal of rational philosophy.

RATIO deals with all branches of pure and applied philosophy, from logic and philosophy of nature to ethics and philosophy of religion.

RATIO continues in a new form philosophical aims pursued with uncommon seriousness and courage in the *Abhandlungen der Fries'schen Schule*. The *Abhandlungen* were established in 1847 by Ernst Friedrich Apelt and re-established in 1904 by Leonard Nelson. Their publication was interrupted in 1937 as a result of national socialism.

WHITEHEAD'S METAPHYSICS

By IVOR LECLERC, M.A., PH.D., *Lecturer in Philosophy, University of Glasgow*
Explains the main notions of Whitehead's metaphysical scheme, introducing them one at a time as they become relevant in a progressive exploration of the great philosophical problems. They are then brought together in a presentation of Whitehead's general metaphysical conception of the universe.

CONCERNING HUMAN UNDERSTANDING

By N. V. BANERJEE, *Professor of Philosophy, University of Delhi*
Professor Banerjee offers a restatement of the problem of knowledge, attempts a solution of the conflict between science and philosophy and handles the baffling problem: 'is metaphysics possible?' In particular, the book deals with the problem of religion in its bearing upon the future of civilization.

THE MODERN PREDICAMENT

By H. J. PATON, M.A., D.Litt., LL.D., *Emeritus Professor of Moral Philosophy, University of Oxford*
Discusses men's moral predicament in an age of scientific scepticism and in a world wholly different from that in which religion developed.

A sample copy and other information may be obtained from Mr. D. C. Stone, Department of Humanities, N.S.W. University of Technology, Box 1, Kensington, N.S.W., Australia.

The Uses of Argument

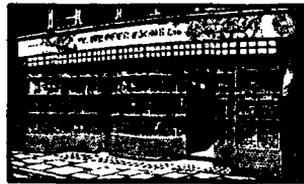

STEPHEN
TOULMIN

The relevance of formal logic to our everyday disputes has remained unclear. Professor Toulmin inquires why this is so, and suggests a new conception of the foundations of logic. A book for the ordinary reader as well as the professional philosopher.
