Equation (13) should be changed into

$$I(z, t) = I_I(z, t) + \sum_{n=1}^{+\infty} I_{II,n}(z, t) \cdot \cos [n\omega(t - (z - z_1)/v(\tau)) + n\varphi_0]$$

That is to say the “ $n = -\infty$ ” should be changed into “ $n = 1$ ”.
