

# CNS SPECTRUMS

## CONTENTS

### LETTER TO THE EDITOR

#### **Agomelatine: The Cinderella of migraine pharmacotherapy in pediatrics?**

Zohreh Esam and Zahra Nazari Taloki 533

#### **Eye-tracking technology: a tool to enhance understanding of memory complaints in COVID-19 survivors**

Julián Benito-León, José Lapeña-Motilva, and Cecilia García-Cena 534

### PERSPECTIVE

#### **Are glucagon-like peptide-1 receptor agonists anti-consummatory drugs?**

Rodrigo B. Mansur, Joshua D. Di Vincenzo, Sebastian Badulescu, Hartej Gill, Aniqā Tabassum, Cristian Llach López, Joshua D. Rosenblatt, and Roger S. McIntyre 536

### REVIEWS

#### **Opioid antagonists: clinical utility, pharmacology, safety, and tolerability**

Roger S. McIntyre, Marni E. Harris, Mark S. Todtenkopf, Sarah Akerman, and Joshua Burgett 542

#### **Prevalence of orthorexia nervosa in clinical and non-clinical populations: a systematic review**

Barbara Carpita, Benedetta Nardi, Chiara Bonelli, Cristiana Pronesti, Valeria Tognini, Ivan Mirko Cremone, and Liliana Dell'Osso 549

#### **The revival of psilocybin between scientific excitement, evidence of efficacy, and real-world challenges**

Mauro Scala, Chiara Fabbri, Paolo Fusar-Poli, Giorgio Di Lorenzo, Maria Ferrara, Andrea Amerio, Laura Fusar-Poli, Anna Pichiecchio, Carlo Asteggiano, Marco Menchetti, Diana De Ronchi, MNESYS - Mood and Psychosis Sub-Project (Spoke 5), Giuseppe Fanelli, and Alessandro Serretti 570

#### **Clozapine rechallenge following myocarditis: a systematic review of rechallenge cases**

Laura McMahon, Maddison Giudice, Elias Wagner, Alkomiet Hasan, Matthew K. Burrage, John Amerena, Cooper Fox, Karl Winkel, Timothy Tanzer, Lesley Smith, Nicola Warren, Dan Siskind, and Nicole Korman 585

#### **Advances in suicide prevention: critical overview of the gaps in suicide risk assessments, multimodal strategies, medicolegal risks, and the emerging evidence**

Mayank Gupta, Priyā Khurana, and Nihit Gupta 593

#### **Anatomical, behavioral, and cognitive teratogenicity associated with valproic acid: a systematic review**

Kyle Valentino, Kayla M. Teopiz, Angela T.H. Kwan, Gia Han Le, Sabrina Wong, Joshua D. Rosenblatt, Rodrigo B. Mansur, Heidi K.Y. Lo, and Roger S. McIntyre 604

#### **Psilocybin and hallucinogenic mushrooms**

Mathieu Fradet, Carlton M. Kelly, Anna J. Donnelly, and Trisha Suppes 611

### ORIGINAL RESEARCH

#### **Comparing two transitioning strategies to paliperidone palmitate once-every-6-months**

Christoph U. Correll, Karen L. Johnston, Ibrahim Turkoz, Michael Kutch, R. Karl Knight, Monica Doring, and Martha Sajatovic 633

#### **Assessment of cognitive and psychiatric disturbances in people with post-COVID-19 condition: a cross-sectional observational study**

Federico Masserini, Simone Pomati, Valentina Cucumo, Alessia Nicotra, Giorgia Maestri, Matteo Cerioli, Luca Giacobelli, Carolina Scarpa, Luca Larini, Giovanna Cirnigliaro, Bernardo dell'Osso, and Leonardo Pantoni 640

#### **Correlating clinical course with baseline subcortical shape in provisional tic disorder**

Tiffanie Che, Soyoun Kim, Deanna J. Greene, Ashley Heywood, Jimin Ding, Tamara Hershey, Bradley L. Schlaggar, Kevin J. Black, and Lei Wang 652

#### **Impact of depressive symptoms on motivation in persons with post-COVID-19 condition**

Juliana West, Angela T.H. Kwan, Kayla M. Teopiz, Ziji Guo, Gia Han Le, Sebastian Badulescu, Taeho Greg Rhee, Sabrina Wong, Bing Cao, Roger Ho, Joshua D. Rosenblatt, Rodrigo B. Mansur, Lee Phan, Mehala Subramaniapillai, and Roger S. McIntyre 665

#### **Exploring the relationship among hikikomori tendencies, autistic traits, computer game use and eating disorder symptoms**

Barbara Carpita, Benedetta Nardi, Federico Giovannoni, Francesca Parri, Gianluca Cerofolini, Chiara Bonelli, Giulia Amatori, Gabriele Massimetti, Ivan Mirko Cremone, Stefano Pini, Enza Pellecchia, and Liliana Dell'Osso 670

#### **Association of antidepressants with cataracts and glaucoma: a disproportionality analysis using the reports to the United States Food and Drug Administration Adverse Event Reporting System (FAERS) pharmacovigilance database**

Gia Han Le, Sabrina Wong, Angela T.H. Kwan, Joshua D. Rosenblatt, Rodrigo B. Mansur, Kayla M. Teopiz, Roger Ho, Taeho Greg Rhee, Maj Vinberg, Bing Cao, Sonya Liao, and Roger S. McIntyre 682

#### **The mediational role of cognitive function on occupational outcomes in persons with major depressive and bipolar disorder**

Jocelyn K. Tamura, Dorottya Harangi, Nelson B. Rodrigues, Rodrigo B. Mansur, Mehala Subramaniapillai, Danica E. Johnson, Joshua D. Rosenblatt, Yena Lee, Joshua D. Di Vincenzo, Roger Ho, Ronesh Sukhdeo, Bing Cao, Leanna Lui, Felicia Ceban, and Roger S. McIntyre 697

CORRIGENDUM

**Rumination and altered reactivity to sensory input as vulnerability factors for developing post-traumatic stress symptoms among adults with autistic traits – CORRIGENDUM**

Liliana Dell'Osso, Giulia Amatori, Federico Giovannoni, Enrico Massimetti, Ivan Mirko Cremonese, and Barbara Carpita 705

ERRATUM

**Comparing two transitioning strategies to paliperidone palmitate once-every-6-months – ERRATUM**

Christoph U. Correll, Karen L. Johnston, Ibrahim Turkoz, Michael Kutch, R. Karl Knight, Monica Doring, and Martha Sajatovic

# Solitude

## The Science and Power of Being Alone

Most of us spend a sizable chunk of each day alone. Whether we love it or try to avoid it, we can make better use of that time. The science of solitude shows that alone time can be a powerful space used to tap into countless benefits.

“Extremely comprehensive, accessible, and tremendously engaging. This is an absolute must read and invaluable resource on this topic from leading international experts.”

Robert J. Coplan, *Carleton University*

“This book is full of wisdom. Kind, conversational, and profoundly practical.”

Michael Harris, author of *Solitude and The End of Absence*

“This delightful book helps you strengthen your capacity for solitude and harness the benefits of being alone.”

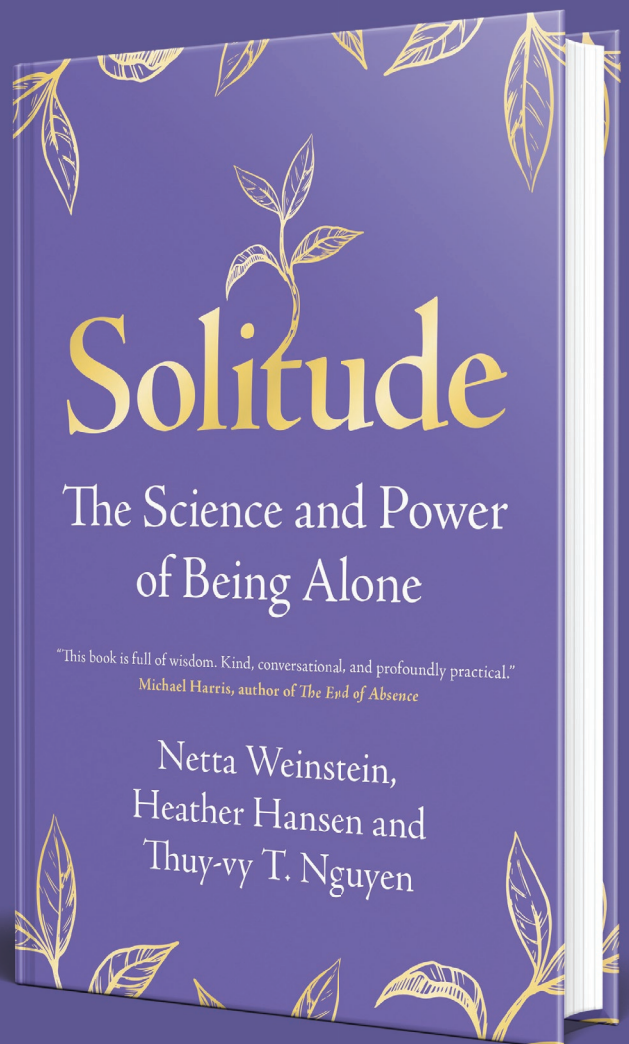

Scott Barry Kaufman, author of *Transcendence*

“Rejuvenates the subject by sowing the seeds of reshaping our perception of solitude.”

Sharon Ost Mor, *University of Haifa*

“An interesting and comprehensive read on everything you need to know about making the most of your time alone.”

Marion Pauw, author of *Daylight* and screenwriter of *In Therapy*
