

# Energy Law '90

## Changing Energy Markets – the Legal Consequences

by IBA Section on Energy & Natural  
Resources Law

This new publication makes available under one cover nearly 50 excellent papers prepared for the IBA's (Section on Energy & Natural Resources Law) Ninth advanced Seminar on Petroleum, Minerals and Energy Resources Law, convened in April 1990.

Competition and the impact on energy companies of the EC Single Energy Market, and the increasing impact of environmental issues on the operations of energy and mineral companies, are discussed by leading international lawyers and others engaged in the field. The texts, thoroughly edited and revised by the Section on Energy and Natural Resources Law, reflect some of the most up to date and authoritative thinking on the subject across a very wide international spectrum. This volume maintains the high quality of the previous successful work *Energy Law '88* also published by Graham & Trotman in association with the IBA.

1990, 736 pp. ISBN 1-85333-477-4  
Hardbound \$174.00/Dfl. 320.00/£87.00
