

## The Pleasures of Academe

A Celebration and Defense of  
Higher Education

JAMES AXTELL

"A humanely sensitive, historically informed, and splendidly affirmative evocation of the challenges and (yes!) the joys of the academic calling. An invigorating and refreshing antidote to the dyspeptic negativities and sloppy inaccuracies characteristic of so much of the recent criticism directed at American higher education."—Francis Oakley, president emeritus of Williams College

## Another November

ROGER GRENIER  
TRANSLATED BY  
ALICE KAPLAN

"*Another November* is about not so much the banality as the humble passivity of evil. The surface of this book that takes place during the German Occupation of France is limpid, insouciant; but the depths are troubled and troubling."—

NEW

## THE BEDFORD INTRODUCTION TO LITERATURE Reading • Thinking • Writing Fifth Edition

Michael Meyer, *University of Connecticut*

AUGUST 1998/CLOTH/2200 PAGES/\$37 NET

With its rich array of selections and its many innovative editorial features, this new edition of the most comprehensive 3-genre anthology available provides more options than ever before to help students read, think, and write about literature.

- Stories, poems, and plays that students will read and remember are at the heart of a text that compels students to think critically and write about literature. The features that have made this book a best-seller are all here — integrated coverage of writing about literature, authors covered in depth, sensible discussion of literary theory, and an extensive, spiral-bound Instructor's Manual.
- In addition to 21 new stories, 100 new poems, and 4 new plays, the fifth edition includes over 40 photos; new popular-culture examples; new Cultural Case Studies that invite students to practice cultural criticism; and a completely revised chapter, Writing about Fiction, that includes a model of every stage of a student's paper in progress.

"*The Bedford Introduction to Literature* has it all: all the classics one expects, many literary gems one does not expect, and the most extensive collection of analysis I've seen in such a text. This is an excellent choice for prompting critical thinking. In an era of increasingly specialized texts, it is good to find one such as this, which specializes in everything."

— Michael O'Gorman, *Waubansee Community College*
