TABLE OF CONTENTS

Trees and nest structures. By RAYMOND M. SMULLYAN	303
Finite nest structures and propositional logic. By RAYMOND M. SMULLYAN	322
Transfinite induction and bar induction of types zero and one, and the role of continuity in intuitionistic analysis. By W. A. HOWARD and G. KREISEL	325
Pseudo-complements and ordinal logics based on consistency statements. By ROBERT A. DI PAOLA	359
On definability of ordinals in logic with infinitely long expressions. By AKIKO KINO	365
Hierarchies of computable groups and the word problem. By FRANK B. CANNONITO	376
A supplement to Herbrand. By BURTON DREBEN and JOHN DENTON	393
Pure three-valued Łukasiewiczian implication. By STORRS MCCALL and R. K. MEYER	399
There are infinitely many Diodorean modal functions. By D. C. MAKINSON	406
Short definitions of the ordinals. By KENNETH R. BROWN and HAO WANG	409
Connexive implication. By STORRS MCCALL	415
The impossibility of finding relative complements for recursively enumerable degrees. By A. H. LACHLAN	434
A generalisation of productive set. By R. MITCHELL	455
On formalizing the distinction between logical and factual truth. By WILLIAM H. HANSON	460
Testing singly quantified tautologies. By GERALD STANDLEY	478
Reviews	481
Notice of the Third International Congress for Logic, Methodology and Philosophy of Science	523
Notice of the new quarterly <i>Nous</i>	524

THE JOURNAL OF SYMBOLIC LOGIC is the official organ of the Association for Symbolic Logic Inc., published quarterly, in the months of March, June, September, and December. The Journal is published for the Association by *N.V. Erven P. Noordhoff, Publishers, Groningen, The Netherlands*. The subscription price is six dollars and fifty cents annually, for current subscriptions. New subscriptions must begin with the first number of the current volume, as determined by the date of receipt of the subscription. Completed volumes are sold at eleven dollars per volume, except for volumes 1–12 which are nine dollars per volume. Members of the Association of three years standing may purchase back volumes of the Journal at reduced rates for their personal use (except volume 1). THE JOURNAL OF SYMBOLIC LOGIC publishes the official notices of the Division of Logic, Methodology and Philosophy of Science of the International Union of History and Philosophy of Science.

Applications for membership in the Association, subscriptions to the JOURNAL, changes of address, and all business correspondence should be addressed to: **The Association for Symbolic Logic, P. O. Box 6248, Providence, Rhode Island 02904.**

Articles for publication in the JOURNAL should be sent to *Hartley Rogers, Jr., Massachusetts Institute of Technology, Cambridge 39, Massachusetts* or to *Alice A. Lazerowitz, 31 Langworthy Road, Northampton, Massachusetts* or to *Arthur N. Prior, Balliol College, Oxford, England* or to *Azriel Lévy, Department of Mathematics, Hebrew University, Jerusalem, Israel.*

All manuscripts should be typewritten with wide margin and wide spacing between the lines, and the author should keep a complete copy; footnotes should be numbered consecutively and should also be typed with wide margin and wide spacing (preferably on a separate sheet). If an article is of more than thirty-two (printed) pages in length, the editors reserve the right to divide it between two or more, not necessarily consecutive, numbers. Authors receive fifty reprints of each article, with covers, and additional reprints may be purchased if desired.

Attention is called to the fact that the JOURNAL invites submission of (1) original technical papers in the field of symbolic logic, (2) expository papers in this field, (3) philosophical papers which bear upon this field or make use of its methods, and (4) studies in the history of logic in which modern technical developments are taken into account.

Authors and publishers are requested to send, for review, copies of books and reprints of articles in journals to *Alonzo Church, Fine Hall, Princeton University, Princeton, New Jersey.*
