

HERODOTUS AND THE PRESOCRATICS

Herodotus' *Histories* was composed well before the genre of Greek historiography emerged as a distinct narrative enterprise. This book explores the *Histories*' place in its fifth-century BCE context, juxtaposing the text with the extant fragments of Presocratic treatises, as well as philosophizing tragedy and comedy. In doing so, it argues for the *Histories*' competitive engagement with contemporary intellectual culture. It demonstrates the ambition of the *Histories* as an experimental prose work, tracing its responses to key debates on relativism, human nature, and epistemology. In addition to expanding the intellectual milieu of which the *Histories* is a part and restoring its place in Presocratic thought, K. Scarlett Kingsley elucidates fourth-century philosophy's subsequent engagement with the work. In doing so, she contributes to a revision of the sharp separation between the ancient genres of philosophy and history.
