# Eleventh International Course on Applied Taxonomy of Insects and Mites of Agricultural Importance

July 8 – August 23 1991

Organised by the  
International Institute of Entomology,  
56 Queen's Gate, London.

Training in the collection, curation and identification of insects and mites of importance in agriculture, forestry and storage.

## Syllabus

- \* Importance of accurate identification
- \* Collecting methods
- \* General curatorial methods, including preparation and labelling
- \* Preparation and packing for safe transit by post
- \* Taxonomic principles
- \* Zoological nomenclature
- \* External morphology of insects and mites with special reference to taxonomic characters
- \* Identification of selected families, genera and species of importance in agriculture, forestry and storage
- \* Seminars and special lectures on related topics.
- \* Information retrieval
- \* Visits to research establishments.

This is an intensive course reviewing all the major groups of insects. The aim of the course is to equip participants with the knowledge and skills to provide 'on-the-spot' identification of the more familiar species associated with important crops.

It is intended for entomologists working in the tropics in the fields of agriculture, forestry or environmental protection. Applicants should have some previous experience of insect identification and should ideally be involved in identifying insects in their daily work or providing an identification service to others. They are likely to be working in government ministries, national or international research institutes, universities and museums or reference collections.

Fees: A course fee of £1,800 is payable in advance by successful applicants. This fee does not include the cost of travel to and from London or accommodation.

Further information and application forms are available from the *Director, International Institute of Entomology, 56 Queens Gate, London SW7 5JR* (Fax: 44 71 581 1676).

Completed forms should be returned to arrive **not later** than April 1 1991.
