

“A welcome addition to all social science research collections. . . . Without imposing any ideology, the editors provide a forum for the ‘re-examination—through a gendered lens—of familiar discussions of state, market, family, and civil society.’”

— *Library Journal*

Social Politics

INTERNATIONAL STUDIES
IN GENDER, STATE
& SOCIETY

“Very attractive to a wide audience, across disciplines and nations. There is nothing close to it, yet interest in this field is growing rapidly.”

— Theda Skocpol, Harvard University

Civil Rights in the United States

EDITED BY HUGH DAVIS GRAHAM

A collection of essays that places the issue of civil rights in America into a historical and comparative perspective.

It is true that progress has been made over the last thirty years in the struggle for civil rights for racial and ethnic minorities and women. This collection of essays, however, seeks more than simply to measure the success of civil rights policy in America. Instead, the contributors ask how both the civil rights problems and the policies developed to remedy them have been affected by the distinctive historical forces that have shaped the American political culture. Written from diverse disciplinary, topical, and cultural perspectives, these essays offer readers a broad and historically informed analysis of civil rights policy that should foster reasoned discussion, academic debate, and further research.

CONTENTS

Hugh Davis Graham/Introduction

Hugh Davis Graham/Race, History, and Policy: African Americans and Civil Rights Since 1964
